

Patrick and Ashley

A Letter from Us:

Dear Birthparent(s)

We like to thank you for taking the time to read our profile and giving us the chance to let you know more about us. We have a lot of respect for your courage and are thankful you are willing to take the time to consider us to be adoptive parents. We hope that you can find us to be the loving family that would do anything to care for our children.

Our names are Patrick and Ashley and we have been together for 3 years. We met at work 6 years ago and it was an instant friendship. We are very happy and always take pleasure in each other's company. Some of the activities we enjoy are: bowling, playing dart ball, attending church on Sundays, and going on lots of trips and vacations. We are very family oriented and we love getting to spend time with our niece and nephews. We have a tabico cat named Lizzy and she is waiting for someone to play with her.

Currently we do not have any children but we do love them and can't wait to become parents ourselves. This has been a dream of ours since we were married. In the early stages of trying, we had a lot of complications and felt that it was God's plan for us to go through adoption. We have a stable home and good jobs.

We have a great desire to start a family and we feel we were meant to build our family through adoption. We are open to adopting a child of any race or gender. We believe in loving a child in need no matter where they come from. As parents, we will encourage and support our children to be who they want to be and respect their heritage/culture and to ask any questions they have about it. We are ready to raise and love a child of our own. Thank you again for considering us. We pray that God will help you through this important decision and lead you to the right family for your child.

Yours truly,

Patrick and Ashley

About Us:

We met for the first time at work and became good friends. We work on an assembly line at a battery factory. Ashley started there 10 years ago and was Patrick's trainer when he started 4 years later. After two years of working together, we started dating and have been inseparable ever since. We do everything together and enjoy going on camping trips to central Ohio, Disney World, Fort Meyer, Florida, and Jamaica. We also enjoy having fun with friends bowling and playing dartball.

When we are not working, we love to spend time with our cat Lizzy, our fur nephew Buddy (dog), and our niece and two nephews. Family is very important to us. We take buddy for walks in the park and on hiking trails near our house. We enjoy taking our niece and nephews to the zoo, beach, water parks and camping trips. We would love to be able to take our children on trips as well.

Ashley is an avid Disney fan. She loves to watch all the Disney movies and collect socks, shirts and mugs. Ashley enjoys being able to collect candles and wax. She also loves her cat and being able to snuggle with her. Ashley's favorite holiday is Halloween and favorite actor is Freddy (Robert England).

Patrick on the other hand is a fisherman and enjoys outings with his dad and brothers in the summer. Patrick is an Eagle Scout which brought on his love for the outdoors. He loves camping, hiking, boating, or just having fun. Patrick also likes to do woodworking projects in his spare time.

We share the same interests in most everything we do which makes us very unique. We work together and enjoy traveling and shopping together. We enjoy going to the amusement park and riding the coasters, as well as swimming and going to water parks. We enjoy being out of the house and spending the day together. We love the zoo and are both animal lovers for sure. The best quality in Patrick is that he supports Ashley in everything she does and Patrick does the same for her. We support each other 100% of the time whether it's doing something together or something with another family member or friend.

We are very grateful for finding each other and supporting each other any way we can and can't wait to share our home and lives with a little one.

About Patrick

Patrick is a very loyal and patient person. He is very hard working and great handy man to our home. He is very supportive in any of my decisions and his love for kids is so heart-warming. I know Patrick can't wait to become a Dad and he will be a great one at that. Patrick will make a great parent because he has been around children for most of his life as his mom is a babysitter and they always wanted Patrick to play with them. He is great with his niece and nephew's, they always want piggy back rides and to play games. He is a very patient person and with kids that's what they need.

About Ashley

I am lucky to have Ashley as my wife. She is my best friend and the love of my life. Ashley is a very trusting, loving, and caring person. She is very supportive in all I do. Ashley loves to go to Disney world, watch Disney movies, go camping, and being able to snuggle with her cat. She also enjoys being able to spend time with our niece and nephews. When we go to parties at my parents house Ashley is always spending time with the niece and nephew. She likes to play with them outside, watch movies with them, or just sit with them. It always puts a smile on her face when she can make kids happy and she can't wait to have one of her own to love. I know Ashley would be a wonderful mom to our children.

Family Life:

Ashley's Family

Growing up as a kid was good for me and my brother. We were very spoiled and usually got what we wanted, but we were also good kids and did things to help out. My brother and I have been very close throughout the years. We enjoy camping and road trips together. We just went on a road trip this October to a Walker Stalker Con in Atlanta for an extended weekend. We share a love for horror movies and anything scary. Another favorite of ours is amusement parks. We usually get season passes and spend the days riding the big coasters. I will always be close with my brother and family. After a certain age I got a job and was able to help out my parents like they did for me. We were very family oriented and loved traveling. Every year we went on a trip. I have visited several states and three countries. I don't have any grandparents left on my side but my parents have been waiting quite a while to become grandparents themselves.

When my grandparents were alive we were always over playing cards and board games. Grandma always made a big dinner and we had so much fun. To this day the tradition stays. We are always at my parents or Patrick's playing games and eating big meals. Lots of pot lucks and thanksgiving style dinners for no occasion at all. Usually every year we get passes to an amusement park or water park and spend some of our summer days there. We will always spend time with family as we believe family comes first!

Patrick's Family

I was one of four kids (2 brothers and 1 sister) growing up. We are very family oriented. My grandma always had meals for birthday parties and all the holidays when we were younger. Now that we have all grown up, the torch has been passed down to my parents. We always have fish fry's on Memorial Day and Fourth of July with all of our family and friends. Every year we rented a cottage out at the lake for a week and went fishing, swimming, and tubing. We love spending time together as a family.

Growing up, my siblings and I were always outside playing. We had a basketball hoop in the driveway and a large side and back yard. We always had the neighbor kids over playing baseball and football or just running around. Sometimes we would even get the golf clubs out and hit balls across the back yard. Now that we have grown up, we will all go out fishing with my dad on his boat, shoot some hoops, or just play catch with a football or baseball. Anytime we have a project that needs to be done, we will always be there to help each other out (ie: roofing, remodeling, or building a deck). We are always there for each other when in need.

Our Home:

We love our cozy little home and it's just the perfect size for a new addition to the family. Patrick enjoys fixing things up and making more room for us. It's a nice 3 bedroom 1 level house with 1 bathroom.

We live in a nice quiet neighborhood in town with great neighbors that always look after our home when we are away. If we need help with anything we know we can always ask our parents. Ashley's parents live close to us on the other side of town about 5 minutes away and Patrick's parents only live about 45 minutes away. There is a baseball field and a park right around the corner from our neighborhood that we can walk to on nice days. There is also an ice cream place on the corner. We are only minutes away from town for all of our grocery shopping needs, a mall, and more parks. The school is in walking distance from our house. We live in a very small town but is very peaceful and quiet.

Our family is small and only consist of one little fur baby, a tabico cat named Lizzy. She is 5 years old and can't wait for a friend. We are hoping to extend our little family very soon. We are ready to create our own memories with our own children as we have lots with our niece and nephews. We are always taking trips and going out to eat at our favorite restaurants. We are always open to new things and new ideas as well. We are ready to open up and make our family much bigger in the future.
