Daniel & Tabitha

Dear Expectant Parent:

Thank you for taking the time to read our letter. Please know that we are thinking and praying for you and your baby. Within the next few pages, we hope you understand who we are as well as our lifestyle and values. We hope that after reading our profile, you will have a good sense of our deep love and commitment to each other and our family. We are very thankful for the life we have and feel blessed that we are able to share it with an adopted child. It is our dream to welcome a child into our home and we truly are appreciative that you would consider us.

Our names are Daniel and Tabitha. We have been married for 8 years. We met 13 years ago while working at an apartment leasing office and have been inseparable ever since. We both always knew that we wanted to have a family. Although we may not understand why things happen in life, we know that God's plan is one that is infinite and we are looking forward to the future. We believe that we can make a significant difference in another person's life by providing a safe, loving, and stable environment. We are an inter-racial couple. I am African-American and Daniel is Korean. With society becoming so diverse we feel that our home provides a unique and positive environment for an adopted child. We are extremely thrilled about our decision to adopt and have tremendous support from our family and friends. We trust in God to guide us through this journey and pray the same for you.

About Us

We grew up fairly close to each other but our paths did not cross until 2003. We immediately became best friends. We enjoyed getting to know each other and found that we had a lot in common. We are both very family oriented. Both our childhoods were spent visiting local amusement parks and taking family vacations. Tabitha loved learning about the Korean culture and especially the food. Dan would bring in Korean food for lunch that his mom prepared and would share with her. We loved going to festivals, taking walks, and dancing. That first summer, we had a lot fun getting to know each other. We still have a lot of fun to this day. We would love to share this environment with a child that we could both nurture and love. Our home is filled with lots of love and laughter. We love to listen to music and socialize with our friends. We try to spend as many holidays as we can with our families. We are looking forward to making more memories and new traditions with our growing family. Recently, we lost our 17 year old dog, Peaches, from natural causes. Her loss was significant and made us more aware than ever how precious life is.

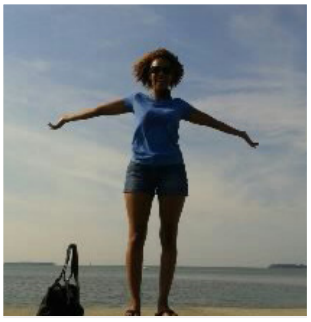
Daniel

written by Tabitha

Dan is truly my best friend. He is such a loving and caring husband. He has a great sense of humor and is always excited about planning a family vacation or adventure. He is a very dedicated person and hard worker. He has a huge heart and will do anything for his family or anybody in need. He has an especially close relationship with his 3 siblings. They have many family traditions, including their annual sibling football game outing. Dan is wonderful with children. Every year he plans summer weekend visits with the kids in our family. This year, we are looking forward to a camping trip.

Tabitha

written by Daniel



When I first saw Tabitha, I thought she was beautiful but after I met her it was obvious to me that she was even more beautiful on the inside. She was and still is a very kind hearted, generous, open-minded, and fun-loving person to be around. She is very independent and strong-willed. I would not and could not have a better friend, partner, and wife to share my life with.

I have so many blessings in my life because of the support she has always given me. We are very close to our families. We have many nieces and nephews that we cherish. It is obvious that she has strong motherly instincts. Everyone loves "Aunt Tab". When the kids come to visit, I can truly see that she would make a great mom.

A little more about us:

Hanging loose in Hawaii

	Dan	Tabitha

Movie:	Bronx Tale	Christmas Story
Dessert:	Anything chocolate	Mom's Banana Pudding
Childhood memory:	Family vacations	Playing in the yard with my baby sister and visiting grandma's house
Hobbies:	Jogging	Cooking
Cartoon:	Transformers	Scooby Doo

Our Family & Friends

Daniel is the oldest of 4 siblings. Tabitha is the 4th of 5 siblings. We have 5 nieces, 4 nephews, and 2 God children that we love unconditionally. Their ages range from 10 months to 22 years old. We love watching them grow and are truly amazed at how time flies. Our baby will be showered with love from so many people and we hope to capture every special moment. He/she will be welcomed by 1 great grandmother, 4 grandparents, 2 uncles, 6 aunts and many great aunts, uncles and cousins.

We have loving relationships with all of our siblings and talk to them all often. We also have a very culturally diverse group of friends with whom we consider our extended family. We spend quite a bit of quality time with them and enjoy many cookouts, dinner dates and game nights. Many of our friends have children and are very supportive of our desire to adopt.

Our Home

We are fortunate enough to live in a great, culturally diverse community. Our home has 3 bedrooms and a large outdoor space. We live in a neighborhood full of families with children and dogs. There is a children's playground located directly behind us, along with an elementary school. We truly love our home and how comfortable it is. It is located on the outskirts of a big city so we have the benefits of living in a more suburban setting but still close to the metropolitan area. We do not have to travel far to visit museums, theatres, or the city zoo. Our area is full of parks, shopping, restaurants, cultural festivals, and sporting events. We especially love the fact that we live close to our friends and local family. The school district is great and rated one of the best in the state and nation.

Thank You...

Spending quality time with our child will be a priority in our lives and something we are greatly looking forward to. We know that our child will become our focal point, putting their needs and wants before our own. We are very excited to adopt! Thank you again for your time and consideration! We hope you enjoyed reading our letter!

Best Wishes,

Daniel & Tabitha
