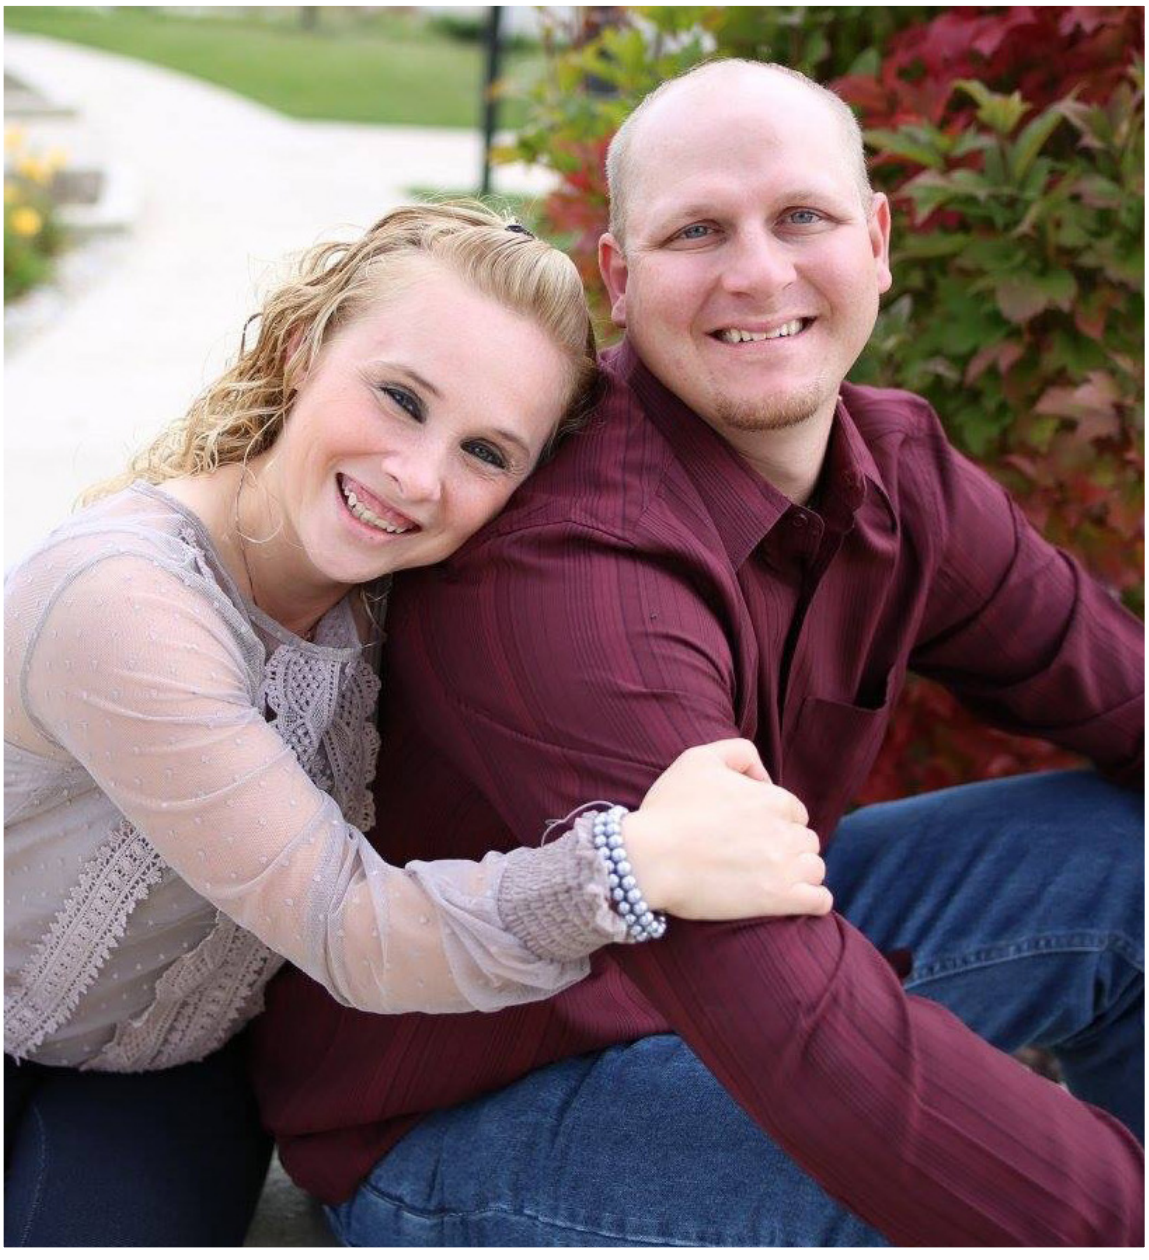
Nick and Jeannie



just a little note:

Dear Birthparents,

Thank you for taking time out of your schedule to view our profile, and to learn more about us. If there is anything you get out of this, it is that we really want you to know that we love our family and we would do anything for them. To us, family is everything. We believe family does not have to share the same blood; it is about the people you care about.

We are Nick and Jeannie. We have been married for almost 6 years. Our marriage is great because we trust and communicate well with each other. Whenever we have a problem, we talk through it and listen to what the other has to say. A very wise man we knew gave us the advice to never go to bed mad. You never know when the last time you will see each other will be. We try to listen to take that advice.

We dream of becoming parents. One thing we can promise you is that we will love your child. We will put your child's needs before our own. Our family will also do the same.

Thank you again for taking time to view our profile.

God bless you!

Nick and Jeannie

about us

One of our favorite bridges

We met in the summer of 2006 through a mutual friend. We connected right away. We both feel that we are the best thing that has happened to each other! We can't imagine our lives without each other.

We value 3 things. They are religion, family, and education. We want our child to know about God. We want to go to church as a family! Family is very important to us! We want our child to know that you can always count on your family. Education is also very important. We want our child to go to college and be successful.

Here's a little information about us. Nick is 32 years old and works as a business tech. He has been working for his current company for 3 years. In 2008 he became a volunteer firefighter. He got promoted to Captain recently.

Jeannie is 31 years old and she works in a nursing home as an STNA. STNA stands for state tested nursing assistant. She has been an STNA for 11 years. Being an STNA is very rewarding because you get to help others that need extra help.

We have 2 dogs that we love so much. They are very good with children. My niece and nephews love them. We have Sammy who is a chocolate lab and Patches who is a beagle.

During our free time we just really enjoy spending time with each other. Whether it is watching movies or just sitting by the fire and talking to each other.

About Jeannie (written by Nick):

Don't let my wife Jeannie, fool you. For being so little she has a huge personality. She can bring a smile to my face just with one look. She has the biggest and kindest heart of anyone I have met. It's one of the many reasons I fell in love with her. Her faith in God has helped her persevere so many obstacles in her life, one has led us to adoption. She maintains a positive attitude with dignity and humility. Jeannie comes alive when she plays with her nieces and nephews. The love they share is amazing, and God willing Jeannie could share that love with a child we can call ours.

Jeannie enjoys a variety of activities such as scrapbooking, doing puzzles, walking, and swimming, along with many other things. Jeannie enjoys the outdoors and vacationing. Throughout our years of marriage one thing has not changed, in our vacation pictures Jeannie has a genuinely happy smile to flash. That's my Jeannie, always smiling.

About Nick (written by Jeannie):

Nick is my best friend and the love of my life. He is such a sweet and caring man. He lights up the room when he is around. He always puts a smile on my face.

Nick always puts family first, before anything else. When a friend or family needs help, he will stop what he is doing to help them.

Nick loves to build. He is often found working on something around the house.

Nick is super with kids. On our first date, we were supposed to go out. Instead, he spent over an hour on the floor playing cars with my nephew. I was touched that he was not intimidated by a child that has Down Syndrome. All our nieces and nephews love him. He always puts a child first. I know he will make an excellent father.

Our Family

We are very lucky to have the family we have. They have been amazing through everything. When we told them that we are going to adopt, they were beyond thrilled. They said this was the best news they have heard. They support us 100%. To us, family is everything. We always look forward to cookouts, spending time at the lake, and the company of our family. Spending the holidays with them is very special to us. During the summer, we always go on a family trip. Each year it is someplace new and exciting, yet child friendly.

Jeannie was blessed to grow up with a big family. She has 3 sisters and 2 brothers. She is the second youngest in her family. Nick has one sister. He is older then his sister.

We have 7 nieces and nephews. They range in age from 4 to 18 years old. We have a nephew that has Down's Syndrome, cerebral palsy, a heart murmur, and epilepsy. We love him so much. He is the key to our family. He is the most honest person we know. We have learned what to watch for when he has seizures. He is such a fighter and we are proud of everything he has accomplished. Our nieces and nephews mean so much to us. During the summer, they spend a lot of time at our house. We treat them like they are our own children. We play games that they want to play. We take them to the pool, and other activities that they like. Just holding them in our arms and letting them know that we love them gives us such joy.

Our Home

We love the house we live in. Our house is the dream house that we have been looking for!

Our home is a yellow, single family, ranch-style house locate in the country. The road is not a heavily traveled road. The house is about 10 minutes from churches, stores, and schools. Our neighbors are very kind and caring. The neighborhood is very quiet.

The house has 3 bedrooms and 2 1/2 bathrooms. The basement is completely finished. There is plenty of room in the home for a child to play.

Our house has an acre of land. Children will have plenty of yard space to run and play.
