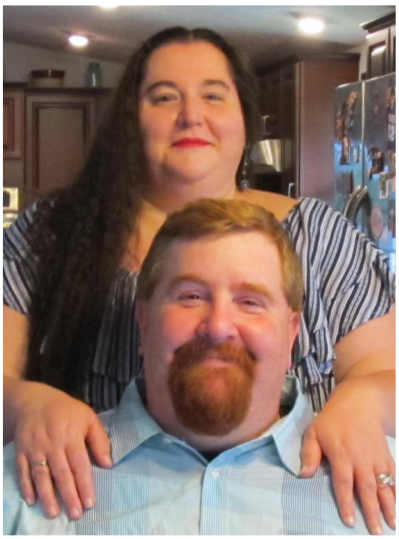
Jason & Cherie



About Us

We grew up about half an hour away from each other but never met until 1998. We were co-workers who fell in love. We were married in April of 2000.
We have a strong appreciation for nature. We look forward to moving back to the farm someday. We spend a lot of time there. There is plenty of room to play and learn about nature and the circle of life. We love animals; we have two cats and two dogs. Our dog's names are Sadie and Abbey. They are Jack-A-Bees. They are about two and half years old. Our cat's names are Rufus and Oscar. Rufus is twelve years old, and Oscar is four and a half. Our pets have been our children, and we spoil them. We have lost a couple pets over the years. The most recent was our black Labrador (Oreo), which broke our hearts.

Jason works in an auto parts store, he is the manager. He has worked in this field for about fourteen years. Cherie works at the local hospital in the Scheduling and Registration Departments. Cherie has worked there fifteen years. Jason loves the outdoors. He likes to fish, hunt, and walk in the woods. Jason also likes to build things and work on vehicles. I always say the dirtier he is the happier he is.

Cherie likes gardening, outdoors, cooking and music. She has a great appreciation for all kinds of music. She finds it very relaxing.

We like to give back to the community. During the Christmas season Jason does a toy and food drive to help the less fortunate. There are always people in need especially during the holiday season.

Jason by Cherie

I love my husband. Jason is a big burley guy, with the biggest of hearts. He is very protective of his family. He loves the outdoors and tinkering with things, like working on cars and building hunting shacks. He is a very hard worker. He is always trying to better himself, and learn something new all the time. He is a very giving man. I knew the moment I saw him with our nephew Lukes, he would make a wonderful father. I just remember the first time he gave me a hug. I was having a bad day and he gave me this big hug. He made me feel so safe and that everything was going to be ok and it has been since that day forward.

Cherie by Jason

I love my wife and would do anything for her. She is a sweet and caring person. She listens to all my problems, even when she does not want to. She likes to cook, even if it may not be something I like, I always try it.
She likes to garden. When it gets that time of year she is always bringing home some type of plant. She is a hard worker, always helping others. She will make a great mother to any child, because she has much love, guidance and knowledge to give a child. If properly motivated she would take on the world. Together we back down from no challenge

Our Home

We live in an older home, so it has a lot of character. You never know what you are going to get into when you do a project, and we are always doing something. We like to do things ourselves instead of paying someone to do it. We live in a quiet neighborhood, in a rural town. We live on top of a hill that looks out over town. We are less than 5 minutes away from the school's library, hospital, grocery stores and the park. Our city park has a great many amenities. There is an outdoor pool, basketball and tennis courts, softball fields, walking trails, and a park pond for fishing and canoeing. There are numerous swings and slides and a playground for the children. There is an amphitheater where they have performers as well as some movies during the summertime for the children. There are also numerous pavilions for family gatherings. We have a yearly festival in which the whole town gets into in the fall. It lasts about four days.

More About Us

Most recently we paid off our mortgage, and replaced all the windows in our house. This was a huge accomplishment for us. We also do not have any vehicle payments either. We have come a long way from when we first met working at McDonalds. We love to go to state parks when we go on vacations. We like to see all the wonders of nature. Our most recent vacation was to Mammoth Cave State Park in Kentucky.

Favorites:

Jason's favorite color is blue; TV channel is the Science channel; favorite food is venison, favorite time of year is fall, and f avorite book is the Bible.

Cherie's favorite color is purple, TV channel is the History channel, loves any Italian food, favorite time of year is spring, favorite movie is American Graffiti.

Family & Friends

Together for Christmas

Jason's family lives about half an hour away. His father worked at a local aluminum plant, but has since retired & his mother was a stay at home mom, plus they also had the farm. She now babysits the grandkids as much as possible. Jason has a older brother, and a younger sister. They are both married and live within 10 minutes from their parents. Jason's sister works at a local restaurant, so he has lunch with her several days a week. Jason's brother is married to a teacher and coaches their children's softball team. We try to support the kids at everything they do from sports, fishing and boy/girl scouts.

Cherie's family lives about fifteen minutes from each other. Her father is retired and enjoys doing anything that involves his dump truck or skid stear. Cherie's mother is retired from the local hospital and now enjoys gardening and yard work. Cherie also has a younger brother.

Jason's family loves to go camping. Cherie's family loves to hunt and trail ride. We also have many aunts, uncles and cousins that we love to get together with during holidays, birthdays & the kid's sports events. In the summer, we get together with our friends for fish frys, pig roasts or any other reason so the guys to meet up to play cards and tell stories. We also always watch 4th of July fireworks from our house every year. We never take our family and friends for granted, as they will not always be there. We enjoy every moment we have together.

Dear Birthparent

Hello, we are Jason and Cherie! We would like to thank you for taking the time to view and consider our profile. We are a simple hard working family. We both were raised on dairy farms. Jason was in the Future Farmers of America, as well as an Eagle Scout. He was very involved with the scouts since his parents were troop leaders. Cherie was involved in several sports (basketball, volleyball, and track) as well as band and Future Teachers of America, Art Club and Varsity Club.

We have traditional values, we believe in respect and working hard for what we want. Treat people the way you want to be treated. We have a strong commitment to love, faith and family. We were both raised Church of Christ and through God everything is made possible. We are looking forward to opening our home and hearts to a child. We will celebrate a child's accomplishments big and small and nurture a child's creativity so that they can take the tools and knowledge we give them to chase their dreams.

Why Adoption?

We have been interested in adoption for about the last five years. We have been unable to have children of our own. We were foster parents in hope that we could give a child a safe loving home. Through the foster care system, we learned more about adoption and decided this was the right course for us. We have been blessed with many things in our lives, but it would truly be a dream come true to have a child to complete our family. We have much love to give a child. We have been through ups and downs in our lives. We believe the best is yet to come. We will always provide a home full of honesty love and openness. We believe that when the time is appropriate a child should know about their adoption.

Thank you for considering us, so that we might have the opportunity to be part of your decision.

Jason & Cherie
