Brett and Pam

About Us

We met about sixteen years ago at work. Brett's sense of humor was the first thing Pam noticed about him. We love to laugh. This past summer, we have been married for six years. We have so much in common and we seem to fit perfectly. We share the same values, sense of humor and that fact that we feel our family and friends are a very important part of our lives.

We are animal lovers and currently have 5 cats ranging from 1 year to 11. They are all rescues. One we even brought back from vacation. They are very funny, friendly and full of personality. They are very important to us and we consider them a part of the family.

We enjoy traveling whether it is just around the area, within the USA or to Europe. We love learning about new places and cultures and seeing how different or alike we all are. It's also a great way to try new food. We went to Ireland and Scotland last year and it amazed us how they would talk like 800 or 900 years wasn't a big deal. (It is to someone whose country isn't that old.) And who would of thought we would have found great pizza in Aruba. We did though. Traveling is a great way to learn about so many things. It is also an awesome way to spend quality time as a family.

We love to spend time outdoors, especially at a beach. There is a lake nearby that has a nice beach to build sand castles. Every summer we have a garden and we love to work in the flower beds. It's great to watch something you nourished grow and prosper. We also love to read although for the most part, not the same type of book. It's nice to cuddle and read on a cool evening. Pam loves to sing and has been a member of her church choir for several years. Faith is an important part of her life. Brett has been going to college and has been working hard to earn his degree.

More About Us

Pam by Brett

The first characteristics you notice about Pam is that she has bright green eyes and a smile that would brighten anybody's day. Pam sings in a church choir, and I'm very proud of her because she recently sang several beautiful solos. Pam is always concerned with others before herself and wouldn't hesitate for a second to help someone if they asked for assistance. Pam loves being around children, and the feeling is reciprocated from the way they respond by smiling and the calming effect of her touch as she holds them. Pam would be a great mother which is shown every day by the way Pam takes care of others.

Brett by Pam

What can you say about a person who is so important to me? He is special. The first thing that attracted me was his smile and the way his eyes crinkle when he laughs. He has an amazing sense of humor and quick wit. His sense of the absurd was very helpful in keeping Pam's mom's spirit up when her stepfather passed away a couple of years ago. He is a very caring and loving person. Pam is very proud of him because he is getting his collage degree while working and spending time with family. It's taking awhile, but he has never given up. It's a great example of the type of person he is. He is concerned about those around him and is always willing to help. He is good with our little nieces and nephews and would make a wonderful father.

Our Home

We live in a very friendly neighborhood. It's like its own little community. There are a families of every age group and race. Everyone is very friendly and it isn't uncommon to get a "hi" and a wave if you are out walking or working in the yard. We live in a two story colonial with a large fenced in back yard. There is plenty of room for a child to run and play safely. Our local school district is highly rated and a good education is very important to us.

Our Family

Cookout with family in our back yard

We have a large family with grandparents, aunts, uncles and a lot of cousins. We are very close and everybody lives close by. We spend many holidays and "just because" times together. At Christmas and Thanksgiving, there can be up to 30 people. We have a fun family. Some might even say crazy. We love to laugh and joke around. Every fall, we get together for a wiener roast. We have been doing this for as long as we can remember. We go whole hog with marshmallows and hot dogs and we top it off with a hayride. This year we rode out to see a bald eagle nest. We of course didn't see any but it was fun anyhow. We also have picnics during the summer.

Birthday dinner with Pam's family

We are very close to Brett's mom and stepfather Rich. We like to visit because they live by the ocean and we love the beach. They also live by some cool amusement parks. His mom and Rich are very caring and fun people. They also come to our house over their vacations and have helped us redo 2 of our bathrooms along with some other things around the house. They are great to have around for so many reasons. Brett's mom has even offered to come watch the baby so they wouldn't have to go into daycare because we work.

Dear Birth Mother,

We would like to start out by saying "thank you" for taking the time to learn about us and for considering us for potential parents for your child. It would truly be a blessing for us. We can't know what you are experiencing at this time, so we appreciate your consideration. Our thoughts and prayers are with you during this time.

We are very family oriented. Pam comes from a very large extended family that is close both in distance and caring. Brett's mom and stepfather are very dear to us and we are very close to them even though they live out of state. We tried for several years to get pregnant. Even with medical help, it apparently wasn't meant to be. However, a family isn't about biology but love so that is why we are so excited to adopt. We have so much love to share and to offer a child.

We both work for a telecommunications company that allows us to be flexible which would help us raise your child in a very loving stable home. We would do our best to teach the values and other cultural and social qualities that are important for a happy and healthy child. We believe that each person has worth no matter what. People should be treated with respect. It is important to see people at face value and not have pre-conceived ideas. We won't be perfect by any means, but we would be present, loving, and supportive throughout your child's life. Also, we would have a large support group in our families to help in any way we needed.

So we would like to tell you a little about us and hopefully give you a glimpse into our lives. Thank you

Brett and Pam
