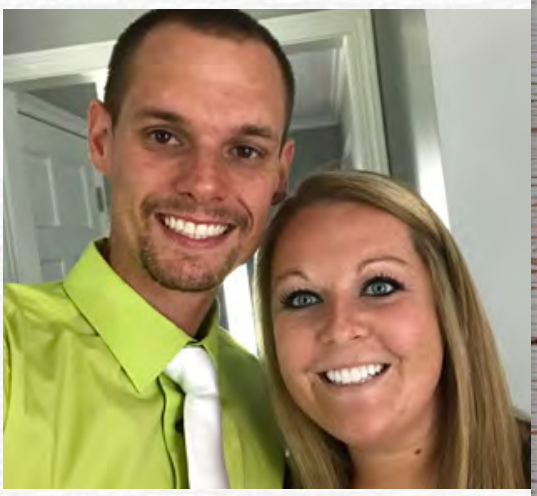
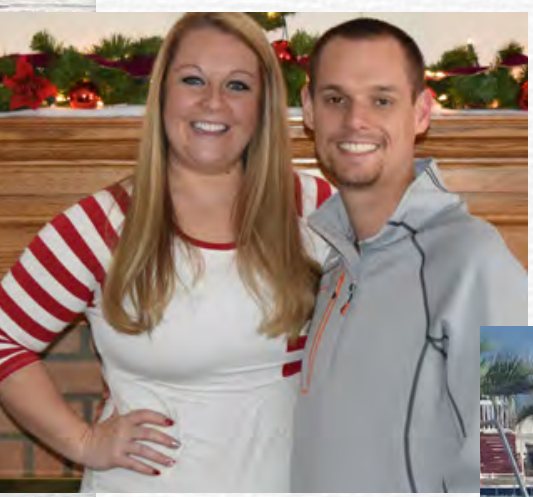
about us

We have known each other and have been friends since 4th grade! It wasn't until our sophomore year of high school that we began dating though. We both ended up attending the same college together, and then finally tied the knot after graduation! We will have been married for 6 years this coming July; time sure has flown! We would describe ourselves as a fun-loving, energetic, loyal, Christian couple that has been best friends for nearly our whole lives. We both enjoy playing sports (and are super competitive!), hanging out with friends and family, and traveling.

Profession wise, Adam is a business owner that sells large mowers and tractor equipment to businesses and individuals around the United States, every little boys dream! On the other hand, Krystle is a 6th grade language arts teacher at a local school district, as well as one of the district's volleyball coaches. We both love our jobs and that they allow us a lot of quality time with each other, our puppies, our family, and our friends.





our home

We live in a beautiful 4 bedroom, 3 bath home that is located on a cul-de-sac. Our home sits on 1 acre of land where our future children and dogs have plenty of room to run around and have fun. Our home and neighborhood is in a very safe and welcoming area. There are kids EVERYWHERE! Even late into the evening, you can hear kids laughing, doing cannonballs, and shooting hoops.

ABOUT krystle
(written by adam)

Krystle is a very passionate and loving person. When Krystle gets her mind set on something, there is no stopping her. She was set on becoming the best teacher she could be, and she set out to do just that. She is the hardest worker I have ever met and will do whatever she has to do to help provide for her family. She is passionate and cares deeply for her students and colleagues. She has a huge heart and is really looking forward to sharing that with our child. She enjoys her summers off and loves to soak up the rays at the pool while relaxing. Sports have always played a large part in Krystle's life. She played basketball and volleyball in high school and still enjoys competing in local volleyball and softball leagues. She lives a well-rounded life.

ABOUT adam
(written by krystle)

Adam is a go-getter; when he sets his mind to something, he makes it happen. For instance, Adam always had a dream of being a successful business owner where his family tree would be changed forever. After continual determination, blood, sweat, and tears, he became a very successful business owner that shocked everyone around him.

In addition to being an extremely hard worker, Adam is one of those guys that is extremely loving, supportive, and encouraging. He has a way about himself that makes you believe that even things that seem impossible are possible with teamwork. One of Adam's hobbies is playing golf. He played in high school and college, and he can't wait to start having father/son or father/daughter date nights where they can go out on the course and have time together to make ever lasting memories.

our family

We have two fur babies. Chance is 5 and is a Golden Retriever/Chow mix, and Marley is 2 and is a German Shepard. Both have their own entertaining personalities and are fantastic family pets that are so sweet and funny.

We both grew up with a mother and a father and they have been married for many years. Adam's family is very close knit. He was the only child and only grandchild on one side of the family, can you say spoiled! :) With that being said, he is his family's world; they would do anything for him. On the other hand, Krystle's family is a loud, sports enthusiastic family. She was the only child for 13 years, and then was surprised to find out she was going to have a little sister, shocker! Krystle's sister is now 16, plays varsity softball, and is a varsity swimmer at a local school district.

One thing you should know about us is that we see family as an important part of life. No matter the race, background, heritage, or economic status of our immediate family, extended family, or friends, family is family and we all love each other the same, just as we will love our new child! We are so excited to let you know that our whole family on both sides are SO excited that we are adopting and cannot wait to spoil and love unconditionally this little one we get to spend our lives with!

Swimming at our parents' house

our friends

We LOVE being around people and doing fun things. We have a group of core friends that we call our best friends. Our best friends are ones that we go to for advice, ones that we regularly hang out with on weekends, and even get to travel and go on vacations with. Our core friends are all beginning to grow their families as well, so they are so excited for us to have a little one too.

dear birth parent(s),

Thank you so much for taking a look at our profile. We are hopeful that you will considered us to take on this very important role of caring and loving for your child. Not only would you have us loving on your baby, but you would have our family, friends, church, and community right there by their side as well.

We have been praying that God matches you and your child with the perfect adoptive parents that will love, care, support, and encourage them every step of their lives. We would love to talk with you and make you feel more comfortable and at ease with your decision.

with love,

adam + krystle

why adoption?

We have always wanted to adopt, we just didn't know quite when it would happen. After we first got married, we wanted to hold off a little bit so we could enjoy time with one another before growing our family. Two years ago, we thought we'd start trying to have a baby. It didn't quite go as planned, and we tried some infertility treatments. We only did 3 or 4 treatments and just felt like God was telling us that adoption was the path he wanted us to go down. We both know that adoption was always going to happen, but it's happening sooner than later, which we are SO excited about.
