Jillian + Mike

About Us

We have been together for 7 years and married for the last 3 years. Although we both were born and raised in a small town close by, we love to go on family vacations and explore and try new things. A few of our favorite things to do are playing games with friends and family, spending time at home with our pets, singing karaoke, and spending parts of the summer at Jillian's grandparents lake house. We are both pretty easy going people. We always find our own fun in anything that we do. Both of us have worked our way up in our careers to become financially stable and we are looking forward to the next phase of our lives, parenthood.

ABOUT Mike
(written by jillian)

Ever since I was a little girl, I always dreamed of meeting a man who would be my prince charming. When I met Mike, I knew he was that man for me! Mike is kind, loving, loyal, and the king of dad jokes. Mike has a fantastic sense of humor and is always making me laugh when life gets stressful. His career as a machinist is perfect for him. He is very hardworking and dedicated to his job as well as his family. He loves being around children and making them laugh and smile, along with being a figure of inspiration to them. We love spending time with his immediate family and our close group of friends. Our nieces, along with our friends' children, all flock to Mike when he is around. He's such a big kid at heart and is always the first person to go out and play with the kids. He will be the best father and an amazing role model.

ABOUT Jillian
(written by mike)

Jillian is the love of my life. Ever since we started dating I noticed her natural motherly instincts were there, and they've never let up. Our nieces always say, "Hi Uncle Mike, where's Aunt Jill?" That always makes me smile. Jill makes sure we spoil them. It's been great to watch Jillian grow into the successful woman she is today. She juggles a full time job, keeps up with the house, and ensures our family always feels thought of by making sure special days and activities are not forgotten. Jillian is loving and nurturing in a way that is inspirational. When times get tough, she has always been able to remind me how to let the small things go, and remember to laugh. Jillian brings out the best in me, and I am very excited to do the same with our family.

Mike's Family

Family is the most important part of our lives. We love spending time together and truly cherish the love and support that our families bring into our lives.

During football season you can find us at Mike's brother's house, cheering on our local football team while cooking-out and chasing our very energetic young nieces. In the summer months, we spend the weekends at the home Mike grew up in. We enjoy mom's barbecue, jumping in the pool on a warm day and relaxing around the fire- making s'mores with our family when the sun goes down. Every summer we take our annual trip to the family cottage in Canada. Jillian's grandfather built the cottage by hand when he was 17 & this vacation has been a tradition ever since. The cottage is on a lake where our family enjoys boating, swimming, & fishing, while appreciating the tranquil surroundings. Jillian's entire family vacations together and takes the time to disconnect from their busy lives to enjoy one another. Holiday traditions are a cornerstone to our families. Mike's family has an elaborate Christmas Eve gathering, including a highly competitive (and hilarious) "White Elephant" gift exchange. Jillian's aunt & cousins host a Christmas cookie-baking and chocolate-making extravaganza. Birthdays are extra special in our families, due to our very large families - we tend to celebrate entire months! We are very excited to continue these traditions and start a few new ones as our family grows.

Our Home

Our home is located in a small peaceful community with various parks and excellent schools. We currently have two dogs that are the sweetest, most loving animals. They are also the laziest dogs in the world. When they aren't spending their time cuddled up next to us, they are lovingly playing with their toys all through the house. We have a large back yard and are looking forward to having many family cookouts for years to come.

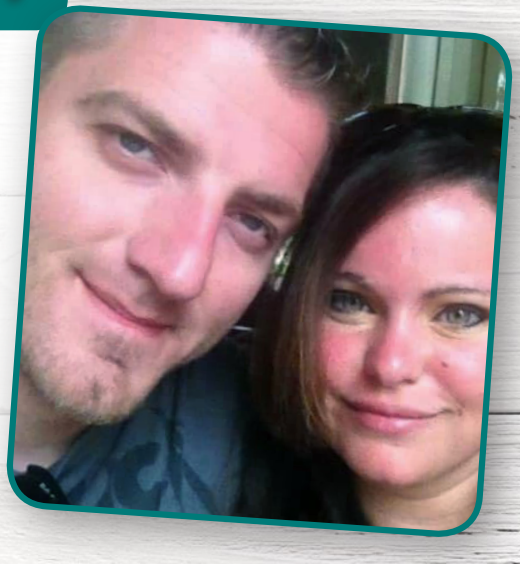
What Adoption Means to Us


Children have always been a huge part of our lives and having a child of our own would mean the world to us. We learned early on in our relationship that having a child of our own was not in the cards for us, but from day one adoption has always been a part of the conversation. We are excited to add a new member to our family to love and share everything we have to offer in life.
