
Micky *and* John

About Us

We met attending high school and dated for a while then fell out of touch as our lives took different paths. We rekindled our relationship 7 years ago via Facebook. During that time, we fell in love, continued to raise Micky's three boys, and married last year. We both love to travel; taking as many of the boys as we can when we do. When we are home, we enjoy attending sporting events or having friends and family over to watch the game.

Micky works as pharmaceutical sales representative providing much needed products for patients suffering from rare diseases. This allows flexibility in her schedule and she is able to plan around family events. She aspires to cook but gets her inspiration from the Food Network. She also loves having their many friends over and entertaining.

John loves sports and works at a local sporting goods store that allows him to pursue his true passion of coaching as well as staying active in golfing, bowling and playing softball. He also is a movie enthusiast of all genres and can recite almost any classic line.

about micky
(written by john)

Micky is by far the most caring woman I've ever met. You can see the joy and the love she has for being a mother and a wife every day on her face. There is nothing she would not do for her kids and me. She is our rock! I could not even imagine raising a child without her.

about john
(written by micky)

John is the most generous person I know. He spends countless hours coaching teenagers in many sports and life. He's dedicated to his parents and nephews helping however he can and has embraced the role of stepdad like a pro. His energy and positive attitude are contagious to people around him. I am very blessed to have him as my husband.

Our Family

Our family is a very close-knit group and enjoys many activities together. Family support and unity is a major part of our life. We enjoy traveling, camping out and afternoons in the backyard barbecuing. Family vacations are a must every summer and frequently involve Micky's four siblings and their families. We feel those times are very crucial for our family. We have a very large blended family so there are always kids to play with!

Our Home

Our home is a ranch sitting in a quiet cul-de-sac overlooking a beautiful golf course as the backdrop. Our close friends and family live just minutes away in our neighborhood. The subdivision we live in has a park and children for miles! We found this house about 2 years ago and have loved renovating and filling it with love! It has 3 bedrooms, 3 ½ baths and a full basement. Our back yard is fenced in and we are on a golf course that the dogs can't wait for us to take them on at night. We are usually outdoors cooking BBQ and having bonfires. Our neighbors are top notch, always willing to help each other.

John & Micky

Why Adoption?

We have chosen to adopt because Micky can no longer have children and John, unfortunately, was not able to have the opportunity to have children of his own. We felt we would very much like to draw on our experience of raising three children to parent a child together. We are extremely family based as we do so much together! This would continue with a new child. Your child will be greatly loved regardless of race or gender.
