Michael & Staci

About Us

We met in 2014 through a dating site and fell in love shortly after meeting. We got engaged a year later and married in September 2016. We are out of the honeymoon phase and are working hard towards building a long and healthy life together. We both have a great work ethic and have a positive outlook on life.

Michael works for a property management company and often gets to spend his days at home. Staci is a social worker. It is a priority for both of us to advance in our fields and to continue to save money to support our family.

On the weekends you can usually find Michael writing or playing music with friends. In the summer he also enjoys working outside to maintain the landscaping and home exterior. Staci is typically looking up crafting ideas on Pinterest to either cautiously attempt or dive into full speed without regret. Staci also enjoys spending time outdoors in the warm weather by taking the dog for a hike in different Metroparks. Mike is often a willing participant in Staci's outside adventures. Every night we work together as a team to cook new recipes for dinner. Mike can often be seen outside as the grilling up a storm and Staci is whipping up complimentary dishes. We value sitting down together nightly for a family meal to connect and share about our days.

About Staci

(written by michael)

Staci really is my soulmate. She has an infinite amount of love and passion to share with the world! Right away, I knew she was the one for me. She has a great love of the outdoors and the Metroparks, which is where I realized I wanted to marry her and where I eventually proposed to her. My wife taught me how to value myself and be a better version of me. I love that Staci is very hardworking, willing to sacrifice, and put her wants on hold to fight for a better life for our family. I am grateful that she has all the personality traits and interests that perfectly compliment mine! It's the combination of all these things that have me convinced that she will make the perfect mother to our children.

About Michael

(written by staci)

Michael is the perfect complement to my personality and brings out the smiles in my soul. I feel extremely lucky, because I couldn't have hoped for a more supportive and loving person to be my partner! Michael has a fantastic sense of humor and is always making me laugh when life gets stressful. He is an easy and down-to-earth person who tries his hardest to help out others in a selfless way. Michael is one of those people who I can honestly say is just a good person! He is the type of person that I want to raise my future children to be like. He is a very passionate man in regards to everything he does. I especially love the way his passion shines through when playing music, having game night with friends, and spending quality time with our nieces and nephews. I cannot wait to watch him become the amazing father that I know he will be!

Our Home

Our home is a welcoming and comfortable environment filled with love. It is a ranch style home with 4 bedrooms, 2.5 bathrooms, and a large fenced in back yard. We live in a quiet and friendly sub-development next to a park where you often observe families out riding their bikes and walking their dogs. Since we live so close to the park, sometimes we find deer in our front yard or wild turkeys walking down the street. Our home is also close to plenty of dining and shopping areas to enjoy. The best part about living in our neighborhood is that Mike's family is right around the corner. Family often drops by to help with a home improvement project or to have dinner.

Our home wouldn't feel the same without our pets. We have a gentle giant dog named Axel and 3 cats. Axel loves to go on hikes, swim, and lay in his dog bed while judging people. The cats favorite past time is to either cuddle with us while we watch Netflix or running around the house chasing each other. Most guests would never guess that we have cats since they can be shy and tend to duck under the nearest piece of furniture to hide.

Our family & friends

4th of July BBQ with Mike's side of the family

Michael is the oldest of 4 siblings. All of his siblings have provided us with nieces and nephews that we love to spoil! Staci was adopted by her grandparents and grew up as an only child. Family is something that we strongly value as a couple. We love getting the family together at our home to celebrate birthdays, holidays, and to grill out in our backyard during the summer. Thankfully, both of our families have been extremely supportive of us welcoming a child into our home and are excited for the addition!

Staci's friends constantly travel, but will stop in and stay for a whole weekend to catch up and have a heart-to-heart. Almost every weekend Michael's friends stop by for a few hours to play music or board games. You can hear them joking around and laughing throughout the whole house. They are a huge part of our lives and are just a great group of people.

hello!

We appreciate you taking the time to read our profile. Hopefully you learned about us as a couple and our hopes for the future. It was clear in the beginning of our relationship that both of us wanted to start a family. We would like to eventually have a family with multiple children, so your child will have siblings to play with. We look forward to beginning this journey with you and the possibility of our family growing. A child welcomed into our family will be provided with a loving, caring, safe, and supportive home surrounded by loving friends and family.

Why Adoption?

We believe that it is perfect time for us to begin a family! We cannot currently have a biological child due to both of us being diagnosed with infertility. Adoption just feels like the right path for our family. Both of us want a large family and are excited to welcome a child into our lives.
