Chris ♥ Tiffany

About Us

We met in 2012 and married 18 months later. We have built our marriage on faith, love, and respect. When we were dating Chris taught Tiffany to dance and we have enjoyed dancing together ever since. We also enjoy playing board games together and with friends. We have built a large game collection with a wide variety of games. We also enjoy taking our dogs to the park, visiting family, attending church functions, taking family trips, and just sitting at home to watch SciFi and animated shows on TV.

We do not quarrel or fuss. Our disagreements have always been resolved in a loving and respectful way. We seek out reasonable compromises and truly function together as a team.

Chris is a Mechanical Engineer and works in the aerospace industry. Tiffany is a Human Recourses professional and works for a Healthcare network.

FunFacts

Building robots, swing dancing, playing board games	Hobbies	Playing board games, Arts and Crafts, walking nature trails, going to flea markets, swing dancing

About Chris written by Tiffany

Chris is a kind, loving and gentle person. He is my best friend, my partner and my confidant. He makes me feel loved and safe and is a doting husband and son. Chris is smart, a child at heart and a little bit nerdy which makes him the perfect match for me. He makes me laugh and I look forward to coming home from work each day to be with him. Chris loves to build robots, play board games, read about space, watch sci-fi and go swing dancing. He loves dogs and can never pass up the opportunity to pet one when we are at the park.

He is a man of character and integrity who always tries to do the right thing. Family and his faith are extremely important to him. He is very loyal to the people in his life. He is by nature a protector and nurturer and would be a loving and caring father who would invest his time, love and energy into making sure that his child grew up feeling loved and safe. He would do everything within his power to make sure she or he had a childhood that allowed her or him to learn, flourish and grow into a healthy, well-adjusted adult.

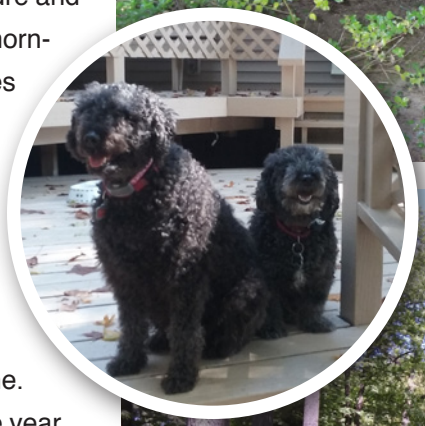
About Tiffany written by Chris

I am blessed to have a godly wife who is faithful, and loving. She is a thinker and a planner, she is also creative and caring. Every moment I spend with her is a joy whether its walking in the park, doing crafts, playing games, or just watching TV together. Everything is better with Tiffany.

Tiffany is a woman of strong moral character who deeply loves her family. She is frugal with our money and a hard worker. She likes to make our home beautiful, she plants flowers in the spring and enjoys decorating our home for the holidays. She is a gracious host who enjoys having friends and family over.

She currently works full time, but is looking forward to being a full time mom. I have seen her maternal nature demonstrated by how much she loves her nieces and spending time with them. Tiffany is the love of my life and my best friend. She makes me a better person.

Our Home



We bought our first home together in 2014. We love nature and it has a lovely wooded lot with a big back yard. Every morning, we wake to the sound of birds singing and sometimes we even spot a flock of wild turkeys in our back yard. Our home has 3 bedrooms. The upstairs has two built-in twin beds and would be ideal for a child's bedroom. Adjacent to it is a large open room that would make for a great play space.

Our home has a great room with pine wood paneling and hard wood floors. We love to decorate it at Christmas time. We also enjoy spending time on our deck throughout the year and like to plant flowers and herbs in the spring. We enjoy going outside to throw the frisbee with our two Labradoodles or play catch. Even though our home has a country setting, we are just minutes away from the city and have access to stores, a hospital and a well-rated school system.

Our Family + Friends

Family is very important to us. We enjoy spending time with our parents who are loving and extremely supportive of us. Tiffany has a sister who is married and has two nieces with whom she is very close. Tiffany has enjoyed over the years having her nieces over to do crafts, play games and have sleepovers. Her family is very encouraging and excited about the prospect of having a new addition to the family. Her niece has already volunteered to be their babysitter.

Chris was adopted at birth into a wonderful and loving family. He has two older brothers and two adult nieces who now live out of state. When his nieces were young, he enjoyed playing with them and occasionally babysitting. Chris's extended family includes three aunts and uncles and eight first cousins. When Chris was young he enjoyed visiting his cousins and going to Grandpa & Grandma's house for big family holidays. Chris stays close with his family via social media and visiting them whenever possible. Chris's family looks forward to welcoming his and Tiffany's child into their family.

Tiffany and Chris have close, long-time friends with whom they enjoy getting together to go to festivals, dances and various conventions, play board games, go out to dinner and antiquing. Tiffany and Chris also attend a local church and have met many supportive church members there who have also adopted their children. They have been supportive of them through this process.

To the Birthmother

We have a lot of love to give a child. We are a team and will work hard together to be the best parents we possibly can be. If selected by you to be the adoptive parents, we assure you that we will do everything within our power to raise this child to feel safe and loved. We will freely give to the child our time, energy and resources. We will be willing to make sacrifices for them so that they have every opportunity to learn and grow, to have confidence in their abilities and to be the person that God intends them to be.

Chris + Tiffany

Why Adoption

We do not have any children and would love to share our life and love with a child. We are open to adopting a child of any race or ethnic background and would provide them with opportunities to learn about and explore the traditions of their culture. Chris was adopted as an infant and has always been grateful for the family that he is blessed to have. He has always felt a spiritual calling to adopt one day. Chris' mom was also adopted when she was a toddler. Tiffany has always loved interacting with children especially her nieces. She, like Chris, always felt that adopting a child was something that she had a desire to do when the time was right.
