Jason & Leslie

We are an outgoing and compassionate couple who enjoy spending time together and with our friends, family and our pets, too! We appreciate the opportunity to introduce ourselves, our family, and our values to you. We are hopeful to share this journey with you and to build a lasting relationship.

About Us

We met through the new-age technology of online dating. It didn't take long for us to realize we were meant for each other. You could say it was love at first click! We began dating in February 2014, engaged in October 2015, and married in June 2016! We share our home with our three fur babies, Ty and Roxy, our 6-year old tabby cats and our sweet and stubborn 2-year old beagle, Sophie.

Jason works for a large phone company as a network engineer. He loves technology and advancing his career and knowledge by attending trainings and seminars to obtain specialized certifications. Leslie works in Human Resources. Leslie's job allows her the opportunity to provide guidance and support to senior leaders on various policies and procedures.

We both have very stable careers that allow us the opportunity to live the life we have. We enjoy traveling together and taking family vacations. Our most memorable vacation together was our cruise to Alaska! We got to enjoy whale watching, mountain train rides, glaciers and visited a local dog sled camp. We like to attend local sporting events, concerts and both enjoy bowling in leagues. We have a collection of board games that we enjoy playing together, and with our nephews and niece when they spend the night. We enjoy spending time at home, with our pets, curled up with a good movie and something yummy to eat. Our hearts are open and ready for the next chapter in our lives, and to complete our family through adoption.

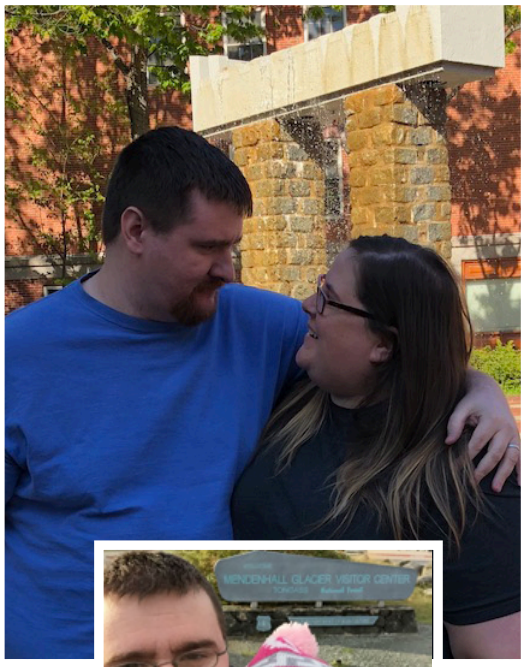
Occupation: Network Engineer	Occupation: Human Resources

More About Us



About Jason (written by Leslie)

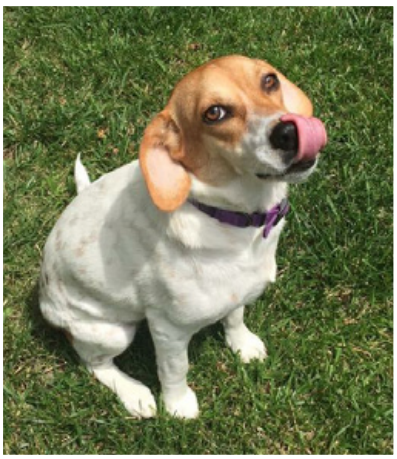
Jason is a strong, caring, and family oriented man. He is the leader of our family. He has a quiet presence that makes me feel protected and secure during times of struggle. He loves me with his whole heart, and I know that he will make a great father. He works hard to provide for our family and puts others needs before his own. He makes me laugh, a lot, and my life wouldn't be complete without him.

About Leslie (written by Jason)

Leslie is known around her family as the second mother. She is often the person friends and family go to when they need advice, or someone to lean on. She puts her whole heart into those she loves and always puts the needs of others before her own. She is loyal, kind and my best friend. Leslie is what makes our house a home and I cannot wait to watch her grow into a mother.

Our Home

Our home is a beautiful five bedroom, 3.5 bathroom, two-story house located in a subdivision with sidewalks, street lamps, walking trails and a park! The neighborhood park is located just one house away from ours. We have a lovely back deck, where we enjoy the overlook onto the large trees in our fully fenced in back yard. We host Thanksgiving and Christmas for our families, and love to entertain friends. The finished basement also allows us to enjoy our individual hobbies, which include a room for Leslie's sewing projects and Jason's big TV for the Sunday football games. Our home is where we grow closer as a couple, and hope to one day soon grow into a family.



Our Family

Christmas with Jason's Mom and Stepdad's Family

Celebrating Jason's Dad and Stepmom's 25th wedding anniversary

Jason grew up in a large family. He has one older brother, two younger sisters, and two step-sisters. Jason's parents divorced when he was young, but both remarried, allowing Jason an opportunity to grow up with amazing parents and step-parents. Leslie grew up with one older sister and an identical twin sister. Leslie's parents remained married throughout her childhood, but divorced later in life.

Between the two of us we have five nephews, three nieces, two great-nephews and one great-niece! Jason and Leslie are blessed to still have four grandmothers and one grandfather between them still living! Many aunts, uncles, and cousins round out the families. Most of our family is local, so we are able to spend a significant amount of time with our immediate and extended family! Our family is very supportive of our decision to adopt and cannot wait to be blessed with a new addition to our growing family.

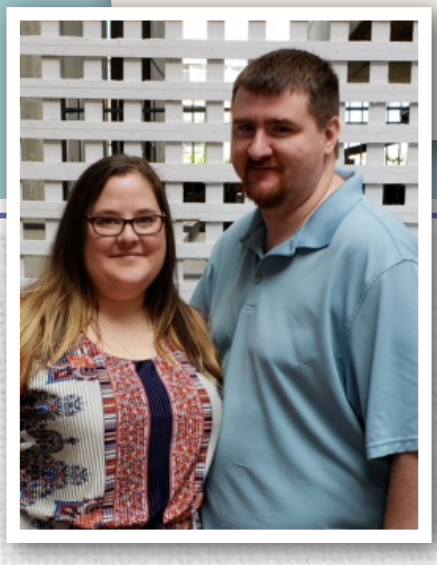
Hello!

Thank you for taking the time to get to know us. We cannot begin to express how much the gift of adoption means to us. We have dreamt of becoming parents since we were children, and feel overwhelmed with joy at the opportunity to meet you. We are a Christian couple, who will love and support a child through all that life has to offer. We continue to pray for peace and clarity as you make the best decision for yourself and child. We hope to get to know you and learn about you, your family, and values so that we can continue to share your family history with a child. We appreciate you taking the time to consider us for this selfless blessing and look forward to meeting you.

Sincerely,

Jason and Leslie



Why Adoption?

From the very first moment we met, we talked about having a family. It was on our first date that we talked about the future and what we both wanted out of a partner. After we got married we were so excited to grow our family. We tried to conceive a child on our own, however, God had other plans. After learning we were unable to have biological children we immediately knew that adoption is the step we wanted to take, as becoming parents has always been a very important goal in both of our lives. We did not know much about adoption, but we knew that our hearts were open to this experience. We look forward to the opportunity to pass on the lessons and wisdom that have been provided to us in life by our families. We are very excited for the opportunity to adopt and with each passing day and milestone we say we are "one day closer" to growing our family.
