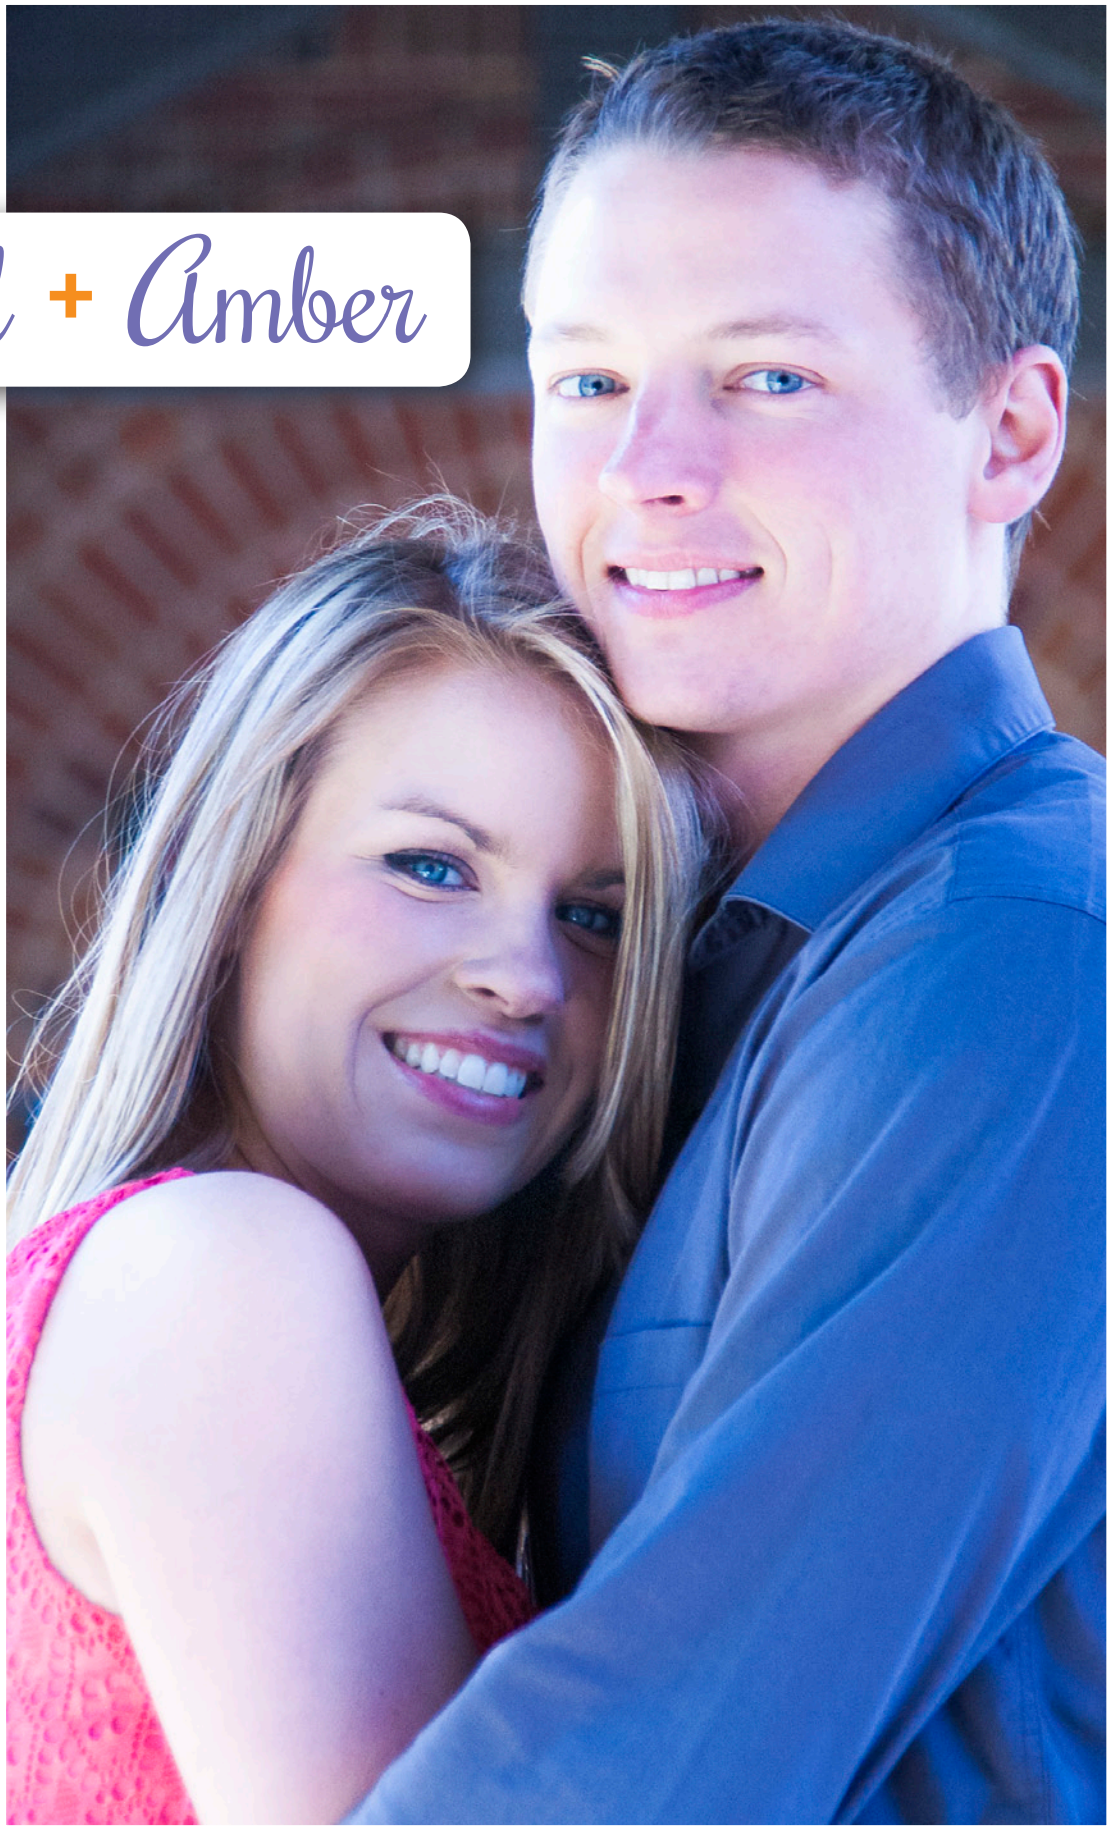
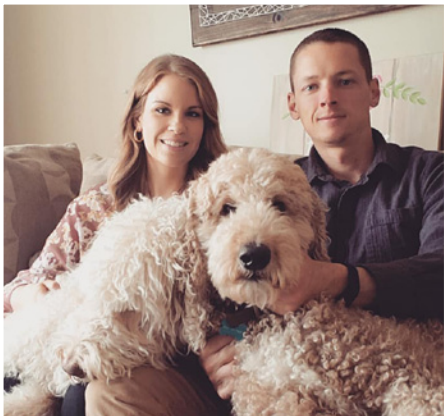
Michael + Amber



about us

In 2013, we attended the same church. Michael played drums in the contemporary worship band and Amber was always helping with the children's classes. Because we were both involved, we didn't see much of each other until we were introduced by mutual friends. We started dating shortly after and were married in 2014 surrounded by our loving family and friends. Our marriage is full of humility, love, and respect. We love spending time together, traveling, taking our dogs for walks, cooking, playing games, and hanging out with friends and family. We have a very strong marriage. Amber is a registered nurse. She loves helping people, especially in their time of need. Michael is an engineer, owns real estate rental houses, and has his real estate sales license. He loves being around new people and getting to know them bet-ter. We're excited to build on our strong commitment to each other in this new adventure of becoming parents!



favorites

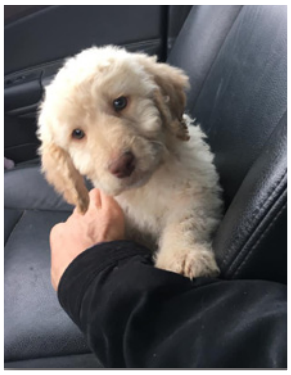
about Amber

Written by Michael. Amber was built to nurture. She is soft, loving, and sweet. These qualities suit her well as a nurse but also as a wife and someday they will serve her well as a mother. She cares for the sick, encourages those who are down, and shows love to the lonely. She does not need to try to do these things; it's just who she is. In her free time, Amber likes to work out, read, and do activities with our dogs. She is a huge animal lover. One of her favorite things to do is drive up and down the road by the lake. She puts the windows down so she can enjoy the scenery and the dogs can enjoy the wind in their fur as they stick their happy faces out the windows. It is the little things like this that make Amber the happiest. She is full of life and doesn't want to waste a single day. I'm very lucky to have her as my wife and someday a child will be very lucky to have her as well.

about Michael

Written by Amber. I knew on our first date that Michael was the man that I was going to marry. He makes me incredibly happy and feel so loved. He is so smart, kind, creative, and is the most positive person I know. He loves me no matter what. He makes me strive to be the best version of myself. He is hardworking and is willing to help anyone. Micheal is very outgoing and great at meeting new people. He loves to build things and is a great teacher. He is a great uncle to his nieces and nephews and they hanging out with him. I can't imagine my life without Michael and I know that he will be an amazing father to our future children.



our home

We live in the suburbs in a beautiful home with 4 bedrooms and 2 bathrooms. When we bought it in 2014, it was outdated and tired. We put a lot of work into the house to transform it into the home that we wanted. It sits at the end of a cul-de-sac in a great neighborhood with friendly neighbors. Our favorite part of the house is the neighborhood because many of our neighbors have become such great friends. It is a safe place with sidewalks for our daily walks around the neighborhood. We also have a large yard for future playgrounds, sandboxes, sports, and other activities! Our house is close to the highway, stores, restaurants, our church, and is only 15 minutes from Amber's parents. Our house is filled with love in part by our two dogs. They are very playful but kind. They often join us on our walks around the neighborhood.

our Family

We are blessed with a great family and they are very important to us. Michael's side of the family is small and reserved. He has one brother and one sister and is very close with his parents. Amber's side is large and energetic. She has two sisters and is also very close with both of her parents. Both of our families get along well and share the same strong values. We get together often for holidays, family members' birthdays, and just to visit. During these times, we'll often play card games or pool. We usually cook a large meal which is sometimes followed by a large nap. We have six nephews and three nieces who love to play together any chance they get. They are all between one year old and seven years old. They are all happy and healthy kids. They are all very excited to add one more child to the group. There's no doubt that the addition will be lovingly welcomed by the doting adults and playful children.

Dear Birthparent,

Thank you for taking the time to get to know us better. We want nothing more than to be parents. We will not take for granted your selfless decision and the critical role it plays in completing our family. We promise to love, provide for, and keep your child safe. We both have stable jobs and are growing our real estate business to ensure financial stability so we can give this child the very best. We are open to a child of any race or ethnicity. We are excited to be blessed with a child and have no doubt that they will be surrounded with loving family and joyful children. Thank you!

Michael + Amber

why adoption

The vision for our life has always involved raising children. We first discussed adoption when dating and both agreed that we would adopt someday but also expressed interest in having biological children. After being married for a few years and unable to conceive on our own, we knew that it was the right decision to start the adoption process. During this time, we were surprised and blessed to learn that we are pregnant. Despite this exciting news, we are still moving forward with adoption to grow our family. We are so excited to be on this journey and know that God has chosen this path for us.
