Peter & Stacey

About Us

In 2010 our lives cross paths. As we talked and became fast friends, neither knew where this would lead. But here we are seven years later happily married and best friends. We love spending time together, making each other laugh, and supporting each other's dreams. Our love and support has grown so much for each other that we know we can overcome anything and are ready to share it with a new edition.

We enjoy hockey games, college football, parks and museums. Our hobbies not only include outdoor activities like fishing and going for walks, but also include indoor activities as well. We enjoy playing all kinds of board and card games as well as watching Disney movies. We also enjoy watching old TV series like the Cosby Show, the Brady Bunch, MacGyver and NCIS. We like to spend time visiting with our parents when we can. So, for now we do a lot of phone calls and Skype sessions.

about Peter

written by Stacey

Pete has to be the greatest thing that has ever happened to me. He is made up of many different people that I cherish:

From being my **best friend**, who is always there to make me laugh, for a shoulder to cry on when I am upset, to be there to hang out, talk about anything, to have fun and enjoy life.

To being like a **mother**, that cares for me when sick, to wipe away the tears when hurt, to be there to support all of my dreams, and help out with the chores.

He is like a **father** that is always there to support his family, to fix things when they break, come home from a long day of work and still spend time with and put his family first.

To being a **boyfriend** by giving me all the love and passion I could ever want, surprising me with gifts and flowers for no reason, and plan dates for us.

He is my **husband**, my better half and soul mate. Pete to me is the ultimate person, the perfect piece that fits into my life. To some he may be just another ordinary, everyday guy, but to me Pete is the world! And I couldn't ask for more!

about Stacey

written by Peter

I know most people will say that their wife, husband, or significant other is their best friend, but Stacey truly is my best friend. Call it fate, luck, or a blessing, she came along at the most unlikely time in my life. I had given up on ever finding that special person in my life and had decided that I was going to be single for the rest of my life. I wasn't happy but I figured that that was just the way it was going to be. Then one night my friends talked me into reluctantly going out and it was that night I met my wife. She is the most caring and thoughtful person I have ever known. She has stuck with me through the good and the bad, and with my job in the oil and gas industry there are plenty of ups and downs and she has been there through all of them. I know that no matter what the day brings, she will always be there for me at the end of the day. And I know she will be there for me always regardless of what comes our way in life. Stacey is an amazing, kind, and caring woman, and I am feel truly blessed to have her as my wife and best friend.

Our Family

We believe in strong bonds within a family. We absolutely love spending time with our families. Stacey's parents live about 4 hours away. We Skype with them often and visit each other about every few months. Pete's parents live around 7 hours away so we do not get to visit them often but they come see us about every 3 months or so. We do talk on the phone quite a bit though. We always try to get together for holidays when schedules and weather permits. But we are all together to help celebrate our son's birthday! With our size of family there is no shortage of love and support no matter what obstacles may come.

Our family is made up of our preschool aged son, which we also adopted. We have 2 dogs, an old man of a chow, Chewbacca that loves his family and a young lab/boxer mix, Remy, that is still very much a puppy that is learning the ropes. We also have 3 cats as well, a gray tabby, Vala, that is scared of everything but loves to cuddle, a calico, Cleo, which is our good little creepy crawly getter, and a dark grey tiger, Sirius Black, he was one of the foster kittens that we kept. Our house also consists of temporary members of kitten fosters, that we call "The Itty-Bitty Kitty Committee." We help take care of them for our local shelter until they our able to be adopted.

Our Home

Our home is nestled in a quiet community development with its own private park and fishing pond. The HOA puts on their own trick or treat night and Easter egg hunt for the neighborhood children. Located within minutes of town that has many restaurants, shopping stores, and recreational centers for people of all ages. It is a quad level home perfect for a growing family. We have a large living room where we like to spend a lot of quality time together. It has ample space for whatever we may want to get into. Whether it be all the toys and Legos, karaoke, coloring pages, and books to let our imaginations run wild, the collection of videos to binge watch, they all help provide hours of family entertainment and togetherness. The view from the dining room is our deck, where in the warmer months Pete loves to grill and smoke meats. Then that is the starting point to venture outside to our huge backyard with a swing set, picnic table, sandbox, plenty of room to run and play.

Hobbies: Baking and cooking, crochet and sewing, fostering kittens, reading, and playing with our son

Dear Birth Mother

Thank you for taking the time to look at our profile and to better learn about us, our family, and our desire to become parents.

It has always been our dreams to become parents and start a family of our own. We feel that we have come to a great point in our lives being emotionally and financially stable. And are ready to add to our family. We have so much love that we want to share and having children of our own to love, teach, and pass down the history of our families would allow us to do that. Having that love from a child is more than we could ever ask for.

We would like to assure you that if your child that is placed with us they will have unconditional love and support not only from us but our families as well. And the possibilities for growth and success will be endless for them. We strive to be able to provide our child with not only what they will need but the knowledge that any dream is reachable.

Many thoughts and prayers,

♡ Stacey and Pete

Why Adoption?

The reason we considered going through adoption is because of health reasons. Stacey encountered some health problems and was diagnosed with anorexia. With her losing a great deal of weight she was hospitalized and put through a recovery program. Stacey is fully recovered from this health condition and back to her old self. But with the weight loss and regain, it put a lot of stress on her body physically and felt it best not to risk the stress of pregnancy or child birth. Our 4 year old son joined our family through adoption and we would love to grow our family and give him a sibling to love.
