Becca + Jeff

Jeff's induction ceremony into Hall of Fame

About us

Thanksgiving at Jeff's sisters

An evening out

Our journey started ten years ago, meeting through an online dating site. We complimented each other well and shared similar life dreams. After nine short months; in true Engineering fashion, Jeff proposed via PowerPoint presentation. We spent a year planning our wedding, working, and continuing our education. We got married in June of 2012 alongside our closest family and friends. Once we were through our education we felt the desire to try and start our family. Going through several treatment options we faced obstacles at every turn. Finding ourselves feeling defeated and needing a change, we sold our house, relocated and changed jobs. New jobs brought renewed hope with more treatment options, but again we faced more fertility disappointments. Adoption has always been in our hearts and quickly became our desire for starting a family. In our leisure time, we enjoy each other's company and the simple things in life. Whether it is cooking a nice meal together, watching movies, or our Saturday morning trips to SAMS club. We like to camp, walk the dogs and ride bikes in the neighborhood and on the nearby bike path. We enjoy a night out at a local restaurant and a concert from time to time. We love just doing life together and care very deeply for one another. We are best friends who have built a beautiful life together and can't wait to welcome a bundle of joy.

- Fun Facts -

Jeff's nickname is Tiny, which he acquired during high school football • Becca's nickname (BeccaBoo) was given to her from her coworkers because she gets scared easily • • Jeff wears shorts and sandals in the winter • • We grill out in the winter •

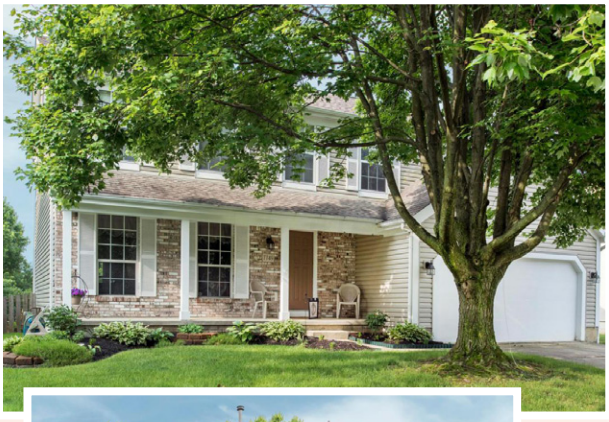
Foods:	Steak, Mexican
Holiday:	Christmas
Childhood memory:	Camping with my family
Sport:	Love all sports
Hobbies:	Wood working, exercising fixing/remodeling our home, spending time with family
Vacation:	Jamaica

About Becca

Written by Jeff Becca has a fun loving personality and she cares deeply for her family and friends. She sets career and personal goals to better herself and others. Becca loves helping others when they are in need. She helps get our niece and nephew from school and to after school activities when needed. She puts together fun events and crafts for our nieces and nephews to do together, such as homemade gifts to give to their parents for special occasions. She has a strong drive to be a mother and is ecstatic about the opportunity of adoption.

About Jeff

Written by Becca Jeff is very kind, intelligent, caring and would do anything for anyone. He is a jack of all trades and if he can't figure it out, he's determined to find the answer. He goes above and beyond in everything he does. I know as a father, he would go even further. He has a heart of gold and is my feeling of home. He was born to be a dad and kids love to be around him. He is over 6ft tall so his nieces love to play and climb on him. He finds light in all situations and keeps me laughing even when I'm having a bad day. I know as long as we are together we can accomplish anything.



Our home

Our home is a single family 2 story, 4 bedroom, 2 ½ bath with a spacious basement. Our home is filled with love and laughter. The patio and fenced in yard is great for entertaining our friends and family or playing fetch with our dogs. Our neighborhood is full of diversity and kids of all ages. We live in a convenient location where we are close to nearby playgrounds, bike paths, shopping, restaurants, churches, and hospitals. Our school district is one of the top schools in the area. We are excited to see how many more memories we can fill this home with.

Our furbabies

We have 2 rescue dogs, Molly and Roxy, who we absolutely adore! Molly is a loving 9 year old Boxer-Lab mix and Roxy is a spunky 11 year old Chihuahua terrier mix. They love to cuddle and play nicely with our nieces and nephews. Their nicknames are Moo Moo (Molly) and DooDoo (Roxy). How did they get those names you ask? Becca gives everyone and everything a nickname! We are beyond excited to welcome a sibling into our pups' lives to love and become best friends!

Jeff's side of family

Concert with friends

Our family + friends

We have been very fortunate to come from stable, loving families who have supported us in everything we do. Becca has 2 younger sisters close in age, who she considers to be her best friends. Becca lost both her parents to cancer in the last ten years. Jeff comes from a relatively larger family and extended family. Jeff has 1 older sister, 2 older brothers and 6 nieces and nephews. Their hearts are overfilled with joy and excitement of welcoming a child to our family. Family is so important and we want to share the meaning of that with a child. We see each other's families often, including holidays, birthdays and random weekends. You can find us eating good food, sharing childhood memories and playing board games. We make yearly vacations to Florida and Tennessee and we can't wait to include this little blessing into our adventures.

At the beach with family

Dear birth mother,

Thank you for the time and interest in getting to know us through our pictures and story. We are excited for the potential of meeting and being a part of the child's story of which we are chosen. The consideration of us to be a part of that is beyond thank able. We've been through so much together, and have overcome so many challenges of infertility and loss; there isn't anything we can't take on, including parenthood. We are open to all race, gender and ethnic backgrounds. If we are blessed with a biracial or mixed race child we will incorporate their cultural background learning throughout their childhood. Being in a diversified city helps grow and cultivate a multi-culture environment. We are ready to give our unconditional love to a child and expand our family through the miracle of adoption. We are incredibly humbled you have considered us along your journey. Sending you love and strength.

why Adoption

We have struggled with infertility issues through the years and exhausted our efforts in trying to conceive on our own. After our last round of IVF we evaluated our goals and what we feel called to do in life. We discussed adoption and felt that God had led us in this direction for a reason. We have several family members who have either been touched by foster and/or adoption. We have seen the positive outcome for adoptive parents, birth parents and child. Our love is too big for just two people and we want to share it with a beautiful child.
