Nicole + Frank

About Us

We met each other in 2011 through Nicole's sister and her former husband. Frank was hosting a New Year's Eve party when we officially met. Both of us grew up in neighboring small towns about 10 minutes away from each other but had never met until then. Nicole was attending college at the time and Frank was moving up the ladder at the company he is currently still working for. We have been married for almost 4 years and have a dog, boxer, and cat that are spoiled rotten.

We both love to travel and attend professional sporting events, Frank especially loves football. One thing we connected on is our love for cooking and trying out new restaurants. We even have a vegetable garden we put in every year. Our family and friends are a very import part of our lives. We often host parties and holidays at our home. We, along with our families, cannot wait to see a child brought into this family.

About Frank (By Nicole)

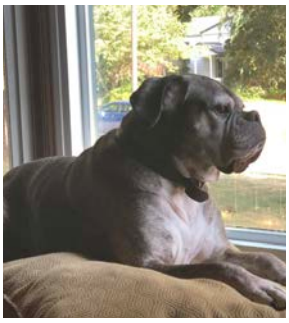
This man captures the heart of everyone he meets. His out-going and social personality draws people in like a magnet. His goal in life is to make everyone feel welcomed and loved. He is one of the most authentic people I have ever met. He is the exact same person at home as he is at work or in public, which can also be embarrassing! Children around him absolutely adore him. His nephews and also my nephew are very big parts of our lives and love to be around “uncle fatty”. To say Frank is a sports fanatic is an understatement. He enjoys watching sports, and even coaches high school softball and football. When I see him around kids, it just excites me to one day see him raising child, and reassures me that he would make an excellent parent.

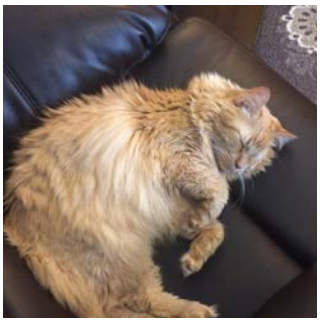
About Nicole (By Frank)

Nicole is a very unique person who cares dearly for her friends and family. She will go over and beyond for anyone if they ask for help just to see someone not struggle. Nicole will brighten up a room with her smile, every time I see her face she makes me want to smile no matter what type of mood I am in. Nicole compliments my outgoing social personality with wanting to have time to ourselves, if it wasn’t for her I don’t think I would ever sit down and enjoy the company of her and I just relaxing in our home. She is very dedicated to her yoga and teaching her peers every week. She is very passionate about her hobbies and our nephews. We always love to take our nephews for the weekend to spoil them and treat them like our own kids. The nephews know when they want something they can always run to Aunt Nikki! Nicole will make a great mother with her strong values and the way I see her with our nephews, our child will be spoiled rotten worse than them!

Our Home

We live in a Bi-level, 3 bedroom, 2 bathroom house in a residential neighborhood. In the summertime we walk our dog at a local park that is just a few streets over pretty much daily as long as it isn’t raining. We also live just a short distance from a shopping mall, restaurants, and the local schools. We have lived in our home since 2015. Since then, we have become friends with our surrounding neighbors and they will even invite us swimming in their in ground pool





Our dog is Debo and he is 10 years old and loves to go for walks at the nearby park.

Our cat is Herbie. He’s very cuddly and loves to tease Debo.

Our Families

We both are very close with our families and they are very important to us. Nicole's parents live just a short 15 minute drive away in the small town where she and her sister grew up. Her sister is 2 years older. She was (and still is) a built-in best friend. A couple years ago Nicole's sister moved into the same neighborhood as Nicole and Frank. Nicole's Nephew even rides his bike over to our home in the summer.

Frank's mother, stepfather, and siblings live about 20 minutes away and also still live in the same small town Frank was raised in. Frank's father and step mother live an hour and a half away but visit often. Frank and Nicole love to spend time with close friends and take trips to visit family in Florida at least once a year. Both sides of our family are very supportive during this journey and cannot wait to watch our family grow.

Dear Birthmother,

Thank you for taking the time to look at our profile and getting to know a little bit about us. We can't possibly know the thoughts you have during this journey but we want you to know that we admire your courage and strength as you make this decision for your child. We want you to know that they will be loved unconditionally and completely spoiled not only by us but by our entire family. Thank you for considering us and we want you to know that you are in our thoughts.

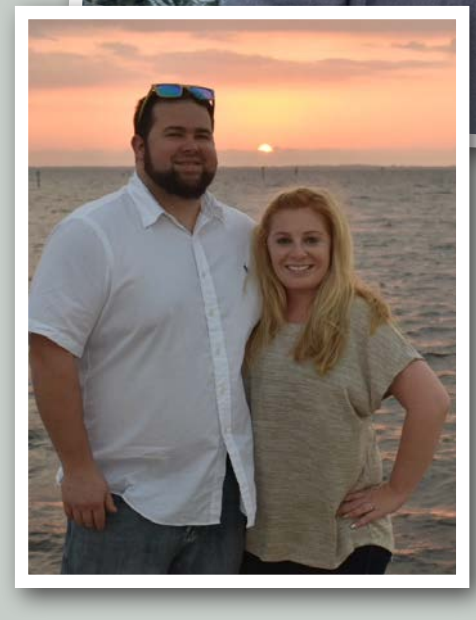
Why Adoption


It has always been a dream of ours to raise a child. We knew early on in our relationship that we wanted a family, and due to infertility, adoption was a very real option for us. The more we discussed adoption the more excited we became. We are overjoyed to be at a place in our lives where it feels right to bring a little one into our lives!
