About *Us*

We are Bisi and Femi, we are soul mates, and we love each other a lot. We've been married for 10 years. We are best friends that lover and respect each other for great values and the opportunities that awaits us with an incoming child.

We met through mutual friends. Our relationship was initially base on a long distance courtship. Bisi was living in Africa and Femi lived in United States. After dating for a year we decided to get married. After the wedding, it took another year to process Femi's immigration papers to relocate to the United States.

We are affectionate people; loving, caring, kissing and hugging are parts of our daily routine. We are both goofy and jokers that makes each other laugh all the time. Each day starts with morning devotion and prayer.

Every day is like Christmas in our home. We don't really have a special season to treat ourselves good—it's our life style. Bisi loves fashion and cooking, and Femi is a handy man. He loves working on things and helping others. We love to donate to charity organization and to support people who are in need.

Our Home

Our home is always a fun place to be. We live in a quiet neighborhood in the middle of a city surrounded with stores and fast food restaurants. Our home is built in 2004 and it's ranch with 3 bedrooms and huge fenced backyard structured for playing and relaxation. Our school district is excellent and has multiple play grounds, sport fields and parks for hiking and biking trails.

Our family and friends

July 4th 2019 with friends

Our family have been a blessing to us. They are supportive and caring, always ready to help in any capacity. All our family lives outside USA but we visit each other occasionally. Our few close friends have been our heartbeat. They are our encouragers and loving people, always available when in need of help.

We visit our family once a year to celebrate Christmas, we love to gather around the table, eat and talk about memories. Next year we will visit to celebrate Easter, visit interesting places like the beach and go to the park with our family and friends on Easter Monday.

Why Adoption

We decided to pursue adoption after we have tried naturally without success, failed IUI and IVF procedures.

We desire to have a complete family where love, caring and support can prevail. After fostering and babysitting for years, we finally conclude that the only way to achieve our dream is to adopt. We both come from a families with numerous siblings.
