Brad & Brittany

ABOUT US

We met in college through mutual friends and have been together for 17 years. This year we celebrated our 12-year wedding anniversary! The experiences we have gone through together in the past 17 years have strengthened our relationship, which has allowed our love for one another to grow deeper. Trust and honesty are the focal point of our relationship. We are blessed to have adopted our son Wyatt and are excited to grow our family through another adoption.

Brad currently works as a Finance Director and Brittany is a Pharmacist. We both enjoy our jobs and our careers allow us to have many opportunities to enjoy life from several different aspects. Brittany grew up playing sports throughout most of her childhood. She has maintained an athletic lifestyle. She particularly enjoys stroller runs with Wyatt and Crossfit classes at the local gym. Brad grew up on a farm and has always enjoyed working with his hands and figuring out how things work. This upbringing has led him to his passion in kart racing. You will find him, with his little shadow Wyatt, most weekends either in the garage tinkering on his kart or at the racetrack racing. We also own a camper, and we enjoy traveling to parks to camp with family and friends.

Brad

Written By Brittany

I am beyond excited to get to tell you my thoughts and feelings regarding Brad. He is one of the most thoughtful, hardworking, charismatic, inclusive, and goofy people I know. He makes it known that Wyatt and I are loved by him daily. I have never had someone other than my own parents support me in the way he does. I feel as though I am a more outgoing and confident person because of him. I am not afraid to share my feelings with him because it often leads to a rationale conversation that in the end somehow makes things just feel ok and right. We are a strong team because we are better due to each other. These characteristics and many more make Brad a wonderful father. Our little Wyatt is obsessed with him and I love watching the joy their relationship brings to everyone around them. His patience and nurturing demeanor would allow any child to thrive with him by their side.

Brittany

Written By Brad

Brittany is an amazing person, and it is my pleasure to share with you why I feel this way. She is the most hard-working, dedicated, accepting, and loyal person that I know. She is an inspiration to me, as she will set a goal, develop a plan to achieve, and celebrate the success while maintaining her/our daily routine. Brittany's connection with Wyatt is remarkable. She teaches him something new each day and provides unconditional love no matter the situation. Brittany is the rock that keeps us marching towards our lifelong goals. She keeps our life well rounded as most of our closest friends have come through her connections. Brittany is an outstanding role model for all, especially the ones that are lucky enough to call her, Mom.

Wyatt

This little boy is the love of our lives and has us laughing daily. He is strong willed, independent, and adventurous. A daddy's boy at heart with his loves being anything with wheels such as hot wheels, tractors, and trains. He enjoys playing with others and is looking forward to a sibling.

Our hope is that we provide to Wyatt an unconditional all-inclusive love that is never questioned. He is biracial and we strive to bring him life experiences and opportunities to embrace his heritage and develop a self-identity of his own with our support. This is our hopes and desires for any child we our blessed with to join our family.

OUR HOME

We have been in our current house for almost 2 years. It is a two story, four-bedroom colonial situated on a little over 6 acres. The backyard includes a large 2-acre wood area perfect for exploring and a patio great for entertaining family and friends. We enjoy growing our own produce in our fenced in garden and Wyatt enjoys eating all the tomatoes before they make it in to the house. Brad and Wyatt love to ride around the property on the tractor and spending time in our detached building tinkering on whatever needs fixed that week. Our town has that small town feel but is also easily accessible to a large metropolitan area. The town includes some great historic sites as well as some unique family run restaurants and shopping in the area. We are located right next to some of the best hospitals and universities in the state. There is a lively culture all around us, which is exciting.

OUR FAMILY

Although our families do not live near us, the support we receive from them is tremendous. With the drop of a hat, they are by our side and ready to celebrate every life experience or roll up their sleeves and provide assistance when needed. Our family and friends supported us every step of the way during our adoption process and are beyond excited to watch our family grow. Wyatt is loved by all of them. We could not be happier that we have the best people to support us in this exciting time of our life.

Dear Birthparent,

Thank you for taking the time to get to know us and look at our profile. We cannot begin to comprehend the hard decision you are making. You have a strength that deserves a tremendous amount of credit. We hope you are looking at our profile and are provided with comfort knowing we will make available a loving, accepting, and full of fun environment for your child to flourish in. We have faith the right situation will present itself to us and pray for the same for you.

Sincerely,

Brad, Brittany & Wyatt

Why Adoption?

We were blessed to become parents through the joy of adoption. We have watched our marriage continue to grow with this new role. We would love nothing more than to raise another child with the skills and values taught to us by our parents and learned by us over the last two years. The joy of watching Wyatt grow into an amazing little boy has been one of the greatest experiences of our life's. After years of infertility struggles, we are excited to expand our family again through adoption. We look forward to showing unconditional love to another child of any race or ethnicity. We will strive to be able to provide them with a nurturing environment to grow into their own independent individual. We want nothing more than to celebrate their successes and be their pillar of strength as they conquer life.
