Megan *and* David

About us

We met online and knew there was a special connection from the very beginning. We have been together for four years and married for two of those years. David has worked as a Senior Accountant for an insurance and financial company for the past seven years and Megan is a stay-at-home mom after being a full-time nanny for three years. Together, we have a one-year-old son named Anderson who is looking forward to becoming a big brother someday.

We enjoy spending time as a family by going for walks, fishing, swimming, and playing outside. On Friday nights, we have a tradition of pizza and movie nights followed by a homemade sweet treat. On the weekend, we like to work on home improvement projects, play outside with our son Anderson, and have dinner with our families. We are fortunate that the majority of our family lives nearby because it allows us to spend more time together. As a family, we enjoying traveling to the beach and spending our free time in the sun and sand.

Favorite Holiday: Christmas

who is Megan

by David: Megan is a sweet, selfless, and thoughtful wife and mother, who would do anything for anyone. She is very caring and compassionate which extends to her role at being a stay-at-home mom. She is the foundation for organization in our family and keeps our house running on a daily basis. I am very fortunate to share my life with a loving wife and best friend who helps support me in my dreams and ambitions. Within a couple months of dating, I knew she was the one and only one for me. She has a gentle and patient personality which translates perfectly for her to be an outstanding mother.

who is David

by Megan: From the very beginning, I knew David was special. He has always treated me with respect and kindness while also valuing my thoughts and opinions. He is my rock and my supporter and he pushes me to better myself in everything that I do. He knows how to make me laugh and smile even when life gets tough. It was evident that he would be a great father someday based on the way he interacted with our niece and nephew and now my heart fills with joy every time I see him with our son because I know how much he truly loves him. He puts us before himself and is the most selfless person I have ever met. He has such a kind and compassionate heart and offers to help those in need and never expects anything in return. I am certain that he will make sure that all of our children feel loved and accepted for who they are.

Our Home

This house is the first house we bought together and we have lived here for two years now. It is located in a safe, quiet, suburban neighborhood that includes a community playground, a fishing pond, as well as an open green space right across the street from our house. Our neighborhood is full of children playing outside together, friendly neighbors, and a variety of community events. We are excited to see our children grow up here and make friends that will last a lifetime.

Our home is a three bedroom, two and a half bath five-level split with a spacious TV room where we love to gather with friends and family for movie nights. We live near a handful of grocery and retail shops, restaurants, and a hospital. Our home is located in a diverse, highly-rated school district.

Our family

Both of our families have always been supportive of our relationship, marriage, and now our desire to adopt. David's family consists of his parents, Dave and Donna, his sister, Renee, and her two children, Max and Emily. They all live within ten minutes of our house and we love spending time outside with the kids, playing card games, fishing, and getting take out for dinner.

Megan's family consists of her parents, Dan and Jennifer. Megan is also very close with her cousin, Jennifer, who lives ten minutes away with her husband and two children. We enjoy going to the zoo, going out for ice cream, and having game nights together. Our families may be small, but our time together is always full of fun, laughter, and happy memories. They are excited to experience this journey with us and share their love with a new child.

Dear Birthparents,

We are so grateful that you have taken the time to view our profile. We both feel as though the Lord has led us to adopt as a way of growing and completing our family. We admire your courage and bravery throughout this process and we would be honored to have the opportunity to show our love and support to both you and your child. If chosen, we will provide a home full of laughter, happiness, unconditional love, and kindness. We believe in teaching our children to treat others the way they would want to be treated, to follow their dreams, and to never give up. We look forward to raising our children to experience new cultures, adventures, and meeting people with diverse backgrounds. For this reason, we are open to adopting a child of any race or ethnicity. Thank you for allowing us to share our story with you. We hope and pray for peace with the decision that you make.

Megan & David

Why adoption?

During the early stages of our relationship, we both felt drawn to adoption at some point in the future. After a difficult pregnancy with our biological son, we knew how much joy it would bring us to adopt a child while also being able to grow and complete our family. We have always dreamed of having a family with children and adoption would help to fulfill this dream and expand our hearts with even more love.
