Nicole & Matthew

About Us

Our love story started 9 years ago when we met on an online dating site. We have been together since we started dating. We have spent a lot of time together and have many things in common that has been beneficial to us as a couple. We love spending time with family, friends, traveling, and watching sporting events. We like to take our dogs on walks, having bonfires with family and friends, watching movies or TV shows on Netflix, and cooking different meals on the pellet smoker. The sporting events that we enjoy attending would be high school football and basketball, college football and basketball, NFL, and MLB games. We have three animals that we love to spend time with. We have two dogs Tucker and Ellie; they are full of energy and love to play in our fenced in backyard. We have a cat named Daisy, who loves to spend her time in the dining room window watching over the neighborhood. We like to attend our county fair and fourth of July celebration in our town. There are many places that we would love to travel to which include Texas, Colorado, Alaska, and Australia. It is very important to us to be around our family and make memories with them.

Matthew

Occupation: Quality Lab Technician

Color: Orange

Season: Fall

Vacation Spot: Florida

Hobbies: Barbecuing on the pellet smoker, watching sports, recreational shooting, traveling to new places, and spending time in our backyard with our dogs

Nicole

Occupation: Certified Medical Assistant
(Currently in school to receive bachelor degree in Healthcare Administration)

Color: Purple

Season: Summer

Vacation Spot: Florida

Hobbies: Spending time with family, spending time outdoors such as camping and fishing, making crafts on my Cricut machine, and traveling to new places

Our Home

Our home is a 3-bedroom, two story cape cod that is in a quiet neighborhood with very little traffic. We have lived in our home for a little over two years and love the neighborhood. We are friends with our close neighbors, and we always look out for each other. We have a fenced in backyard that would be beneficial for children to be safe when they are playing outside. We live close to all the main amenities such as stores, restaurants, churches, and hospitals that would be convenient with children when the need arises.

about nicole

(written by matthew)

Nicole is a wonderful loving person and wife. She is very family oriented and always finds time to spend with family. Even though she is a full-time student and works a full-time job she still finds time to spend time with family and friends. She is constantly working to make our family stronger, even if that means she must stay up late to get her homework done after a long hard day of work. She loves traveling to new places whenever we get the chance. She is very excited to get the opportunity to adopt since we have had a difficult time trying to conceive a baby. Nicole loves to be around children. She gets the joy out of caring for children and that's why I know she be a wonderful mother.

about matthew

(written by nicole)

Matthew is a hardworking and loving husband that is always there to support me when needed. When Matthew and I met 9 years ago we found a connection quickly and I knew that we would get along because he is a very caring person. He supports our family by working hard. I like that he is a very supportive person and loves spending time with family as much as I do. I love that Matthew likes to be adventurous and go to new places when we get the chance to travel. I love that Matthew is as excited as I am about our opportunity to adopt. We have struggled with infertility for the past 6 years. I know he will be a wonderful father because he is good with kids and loves showing them new things.

Our Family

We love to spend time with our families. Our families are loving and enjoy spending time together; whether it's a short visit, sharing a meal together, or gathering for holidays. We make it a priority to see our close family every week to a couple times a month. Holidays are good when we get to spend time with extended family. Our family gatherings consist of many things such as catching up with family, cards, pool, and playing basketball. We have a family tradition on thanksgiving when everyone brings their shotguns to Nicole's grandparents' house to shoot clay pigeons. We love family vacations, cookouts, bonfires, and spending time with our nephew.

We have taken a few family vacations and we have cherished every moment with wonderful memories. One of our favorite family vacations is when we went on a cruise with the entire family. This vacation was memorable because we got to spend Christmas together on the beach. Our favorite vacation spot is Fort Myers Beach. We love spending time here because it has been a vacation spot for Nicole's family for many years. We are excited to be able to make and share wonderful memories with our child.

We are truly blessed to have supportive family and friends through the emotional journey of becoming parents. Our family and friends have given us tremendous support that is needed to continue this journey. We are excited to share these experiences and wonderful memories of our blessing with family and friends.

Dear Birthparents,

We would like to take the time to thank you for looking through our profile. We understand that this is a very difficult and emotional journey for you as the birth parents. We want you to know that we will love and cherish your child unconditionally as our own. We have a very loving home that would give your child many experiences and lots of memories.

We are very excited for you to read through our profile and learn about our family. We hope you find the family that you are looking for even if it happens not to be us. We wish you the best with your decision.

Matthew & Nicole

Why Adoption?

Since we have struggled with infertility for several years, we have never hesitated about the thought of adoption. Both of our families have experienced adoption. Matthew's mother was adopted when she was a newborn and Nicole's cousin also adopted a child to grow their family. Adoption was an easy decision for us because of the positive experiences our families have had. We are looking forward to having the same experiences with the child we are blessed to call our own.
