about us

We met about 14 years ago in youth group, dated throughout high school, and have been married since 2012. We love nothing more than spending time together and making memories with our two kids. Wyatt is a Sales Consultant at a local car dealership and Dalton is a stay at home mom. Our Christian faith is one of the most important aspects of our lives. We are very involved in our church, and love to see the positive impact it has on our children. Some of the things we enjoy are having game nights, backyard picnics, and traveling to new places. We look for any reason at all to get together with close friends and family to enjoy time together! Our friends and family are so important to us and are so excited that we are becoming adoptive parents.

who is WYATT

By Dalton: Wyatt was raised on a large property with plenty of outdoor activities to do with his two siblings and loves any opportunity to get outside and make memories as a family. Wyatt is very easy going and always up for an adventure. He loves to make people laugh and isn't afraid to be goofy to make it happen. Wyatt's free spirit and gentle nature has always had a way of making me feel safe. I knew he would make the best Dad, he is so kind and loving to our children and my love for him grew when we became parents. Wyatt has a great love and appreciation for music. He really enjoys playing the drums and guitar and is involved playing them both on the worship team at our church. Wyatt's greatest joy in life is being a family man, and taking care of his family.

who is DALTON

By Wyatt: Dalton has such a big personality. Although she is quiet and reserved until you get to know her, Dalton is so much fun to be around. She is kind and tender hearted but tough when she needs to be. One of my favorite qualities of my wife is her courage to stand up for others. She doesn't put the opinions of others above doing what is right. She is such a momma bear, so fierce in her love for our children. She is patient with them and spends so much time making sure they know that they are loved. She likes to bake and try cooking new things with the kids and they love any opportunity that mom asks for their help in the kitchen. We are blessed that Dalton is able to be a stay-at-home mom and that our children have so much more love and attention because of it. Dalton really enjoys adventure and one of her favorite places to visit is the mountains of West Virginia. She also really enjoys being at home. Some things that you might find her doing at home are puzzles, crocheting, reading and baking.

home SWEET home

We live in a quiet neighborhood in a 4 bedroom two story home with a living room, playroom and sunroom on the first floor where we love to relax and play with the kids. We have a beautiful backyard where we spend most of our time together when the weather is nice or playing in the snow in the wintertime. Our home is close to parks and splash pads where we enjoy meeting good friends and letting the kids play together. We enjoy visiting the local farmers market and going for walks on nearby hiking trails.

OUR family + friends

Dalton comes from a large family and we are blessed to have the majority of them live locally where we are able to see them regularly. Dalton's family has weekly Thursday night dinners at her mom and dad's. Wyatt's parents live in Florida and his brother and his family live in South Carolina. We typically will visit Wyatt's parents in Florida and spend time on the beach once a year and visit his brother's family in South Carolina at least once per year. Wyatt's sister and her husband along with their 3 kids live only about 20 minutes away. Our kids love the time that they get to spend with their many cousins. Besides our families we also have very close friends who we spend a lot of time with as well. We love to visit Zoos and children's museums with friends and family. We are so grateful to be surrounded by so much love and support.

hello!

Thank you so much for taking time to read a little bit about us. We are praying for you and your baby that God will fill you with peace. We know that this is a confusing and difficult time for you. But our hope is that you feel supported and loved by us no matter where you are in this journey. We promise to love and care for your child with our hearts and souls and to provide a safe, happy home and a life with every opportunity possible.

why ADOPTION?

From very early in our relationship we had a desire to one day grow our family through adoption. We initially struggled with infertility but after having two miracle babies we are excited to continue to grow our family through the miracle of adoption! We want to show our love to a beautiful baby girl or boy regardless of race or ethnicity as color has no bearing on our love. We believe God has called us to adopt, and that adoption is a reflection of God's love for us.
