Bobby & Stephanie

About Us:

Hello, we are Bobby and Stephanie. We live in a small community near our extended families. We absolutely love small town life as we feel our neighbors are like our family and friends'. We actually graduated together at the same high school, but did not realize how much we really loved each other until years later.

Stephanie works full time as a nurse practitioner and Bobby as a technician at a local factory. We cherish our downtime together and love watching movies or cheering on our favorite football teams right from home. Stephanie also loves crocheting and exercise as they are great de-stressors. Bobby loves to explore new musical artists.

Traveling around the country is a passion of ours. We love learning about cultures, trying new foods, and meeting new people. We are most definitely known by their friends as social butterflies and positive people.

Our goal as parents is to raise a beautiful family in the countryside. We're hopeful that big wide-open spaces will encourage their children to explore and learn about the nature around them.

Our Home

Our home is nestled in a small community surrounded by several amenities such as private and public school, a community pool, a café, community rec center, and several parks. All of which are within walking distance. The street our home sits on is bustling with children riding bikes, families walking their pets, and is often a common route for town parades.

Our home is 2 levels with 3 bedrooms. We have a large spare living room that functions as a reaction area/ toy room, and a fenced in yard with plenty of running space for kids and pets. Our home is currently shared with our cat, Bosa, who is declawed and a gentle soul.

About Bobby: *(by Stephanie)*

Bobby is a patient and thoughtful person who carries the warmest smile to anyone he meets. He doesn't let life's stressors consume him, but rather chooses to enjoy the simple things. A perfect saying for him would be "Enjoy today, tomorrow is never promised".

I have always prayed to be blessed with an amazing partner who will also be an amazing father, and I think I hit the jackpot several times over. He is dedicated to his family and will make sure everyone else's needs are met before his own. At times he is a kid at heart. Other times, he is aspiring to be a great role model to young minds. He genuinely loves hearing children tell stories and appreciates just how their little minds work. Be it a son or a daughter, Bobby can't wait to watch his child(ren) grow.

Bobby's Favorites:

Holiday: Halloween
Food: Pizza
Channel: ESPN, history, cooking
Sport: Football
Occupation: Technician at Iams, Inc.
Favorite Vacation: Hilton Head, SC

About Stephanie: *(by Bobby)*

Stephanie is a very driven and caring individual. She cares for her patients all day long, and still finds it in her to check in on her family and friends. She is the epitome of a nurse. How she can complete so many tasks in a day I'll never know.

I know Stephanie will be a loving mother because of her nurturing instincts. She's not only book smart but also embraces the uniqueness of the human soul. She would be the type of mother to encourage her children to be brave and work hard for success, and then turn around want to hug them or spoil them with treats.

I've witnessed Stephanie's heart melt just holding a child. She has told me in the past, "I'm just ready to make them (child) my whole world", and I sincerely believe she would. It was not easy for her to accept her infertility, but she has chosen to view this as a calling from God to adopt.

Stephanie's Favorites:

Holiday: Christmas
Food: Tacos/ Coffee
Channel: HGTV
Sport: Football
Occupation: Nurse practitioner
Vacation: Hilton Head, SC

Our Family

Stephanie's family is German/ Irish heritage, while Bobby's is Spanish. Both of which are very close. Stephanie's family comes from a farming background and almost all are Catholic. Bobby's family also comes from a farming background but also military. Both families enjoy cooking dishes that have been handed down for several generations. Recipes are deemed priceless.

Holidays are a focal point for both families and generally celebrated with extended family members. There are unique traditions that are still celebrate with each family such as hiding a pickle (toy) in the Christmas trees for children to try to find. Or making Cascarones (easter eggs with confetti inside) that children can throw at each other as they are looking for more eggs.

Bobby and Stephanie plan to have their adopted children raised in the Catholic church. This couple also plans to encourage their children to be active in either sports, music, or leadership organizations such as scouts or 4-H, just as they were growing up.

Dear Birth-mother,

First and foremost, we want to thank you from every ounce in our hearts. You are giving someone the gift of life, and someone else a child to love. We will devout our lives to ensuring that the child(ren) grow up to be loving, caring, and patient individual(s). He or she may look nothing like us but will do everything in our power to show them they are loved unconditionally. Your sacrifice will not go un-noticed and we hope to show our children just how special you are to them as well. We are open to a child of any gender and of any race. Our love sees no color, as proven by our inter-racial marriage. We embrace difference and want our children to be just as proud of who they are no matter where they come from.

Sincerely,

Bobby & Stephanie

Why Adoption

We truly believe every soul has a calling from God. After more than 5 years of struggling with infertility we decided our calling was to adopt. We are beyond excited to become parents and accept any child of any race, gender, or ethnicity into our home and our loving hearts.

We know birth parents are just as much a part of this beautiful journey and are willing to have an open adoption to multiply the love the child will experience.
