About Us

Our paths first crossed seven years ago while working out at a local gym. Kyle was the gym manager and Allie was immediately smitten. We eventually started dating, four years later got engaged, and then married 2 years after that. Allie owns her own personal training studio in the small town they live in, which gives her flexibility with her own schedule. Kyle is a Nursing Home Administrator where he cares for the elderly, when, in many instances they cannot care for themselves.

Hobbies: Running, Working out, College football, Traveling

Allie is a hardworking, caring individual, She puts others first, however, she also takes time to care for her health and push towards her goals in business and in life. Currently she run her own gym and help's people change their lives. She's a great wife, and a great dog mom, but also deeply wants a child to complete our family. She loves to buy our friends baby clothes for their newborns whenever we make a Target run. She will be an amazing mother, which can teach a child how to become a successful person, while still taking time for health, family and leisure.

Kyle is literally my best friend and favorite person to be around. He always knows how to make me laugh and pushes me to be the best version of myself. He is so kind but also very driven. He works in a nursing home with the elderly and is absolutely loved and cherished by his staff and residents. He knows how to have fun while also being the most competitive person (besides me) that I know. He will be the absolute best father by leading them to be their most authentic selves & pushing them to their true potential in life.

Our Home

Our home is right in town of our small community. It is within walking distance of downtown stores, the park, and Allie's personal training studio! Our community has great schools, a very active recreational department, and the library that has tons of activities for kids! Our home is a ranch-style that sits on almost an acre with a big back yard that is waiting for a swing set and kids running around! We have a nice deck with a pergola, where we enjoy having family and friends get together in the spring, summer, and fall!

Our *Family* and *Friends*

Our immediate family consists of Kyle, Allie, and our 3 Dogs Bella, Cali, & Maia. We love family walks in the neighborhood, cuddling on the couch on a rainy weekend, enjoying quality time with our friends and family, and celebrating the joys of life! We are so lucky to have a great group of close friends, many with children of their own! Having family in our lives is so important to us! After losing both her parents at such a young age, Allie makes in a priority to have a family get together whenever possible. That time is generally spent with her sister and her three kids, her brother and his three kids, and Kyle's side of the family – his parents and his brother and his son. We spend time during holidays cooking, baking, and playing games! We also love attending school functions and sporting events!

Dear *Birth Parent*

We are honored that you took the time to learn about us! We hope our profile has shown you who we are as a family, and we would welcome the opportunity to answer any questions you may have about us. We are so grateful for you to help us make our dreams come true by providing a loving, compassionate, fun, and stable home for a child. We are committed to care and provide for them in whatever way necessary. We promise to teach them about life, love, and always put them first.

Why Adoption?

When we got together, we always knew we wanted a family but also knew that Allie has a rare disease that prevents her from carrying our own child. So we were able to wait until we were ready for a family to put our entire hearts into and now is that time. Our life has taken us here to adoption, where we have waited and prepared to bring a child into our family. We cannot wait to open our home and family to this amazing journey.
