Zack + Megan

about us

We met in 2016 when our worlds collided on the paintball field. At the time Megan was the captain of the team and Zack was looking for a team to join, so our coach introduced us. From there we learned that we have many similar interests and began our journey together. We have since hung up our paintball masks, but now we spend our weekends playing slow pitch softball. We currently play on a co-ed team together and love to stay active! We enjoy the sport itself, as well as the friends we have met along the way. We are both very adventurous and we enjoy traveling.

We were married in 2019 and currently share our home with 4 pets—two Labrador retrievers and two cats. We truly enjoy spending time with our pets and there are many times that we will take the dogs out on little adventures. Zack currently has 2 children from his previous marriage. Their names are Liam and Keegan. Liam is 11 and Keegan is 9. Both boys live in the same town as us with their mother and spend every other weekend with us. Both of the boys have been super supportive of the news when we shared with them about adopting and they are very excited to meet and have a little brother or sister to spend their lives with. Zack is currently employed as a lab technician and Megan works from home as an investigative analyst team lead for a financial institution.

about Megan

I met Megan in the Summer of 2016 at, believe it or not, a paintball tryout. She was the captain of the team and I was trying out for a spot on the team. A few months later we started talking and it blossomed into the amazing relationship we have now. Megan is a very caring individual and is always on top of things. She also is a very loving person and always goes out of her way to make sure that she shows me how much she cares for me by doing just random acts of kindness. She is a very hard worker and always goes the extra mile to accomplish her goals. When I look at her, I truly do see the motherly love in things that she does. I am so excited to see what our future holds and to raise a child together with her.

about Zack

When I think of Zack, I am always amazed at his kindness, drive, and sense of humor. He is such a hard worker for our family and always makes sure we are provided for. Zachery spent 4 years serving our country in the United States Marine Corps. He currently works hard at his job as a lab technician. He truly is a big kid at heart—he's is always up for a game of putt-putt golf or a few laps around the go-cart track. He always keeps his Nerf guns handy around the house because you never know when there will be a Nerf battle and you always need to be prepared! He is always so kind and thoughtful of others and when I watch him with his boys it melts my heart to see all the love he has to give.

Our home

We currently reside in a large, 5-bedroom home with a little over 2,000 square feet of space. Our home is located right next to a bike trail that runs the distance of our town. Zack's oldest son uses the bike trail by our house to ride between our homes when he wants to go for a bike ride. Our home is also within walking distance of three city parks. Two of the parks have large playgrounds with multiple different playground equipment to climb and play on. Our town holds activities every first Friday of the month, with many activities for children to participate in and make new friends. We are within walking distance of the library as well as all the locally owned downtown shops that we enjoy exploring.

Our Pets

Meeko is our 6 years old black lab, and Loki is our 4 years old chocolate lab. Zazu is 4 and Gidget is 3 are our indoor cats. We are huge animal lovers & enjoy taking our pets just about everywhere we can with us. Our animals absolutely love kids and truly enjoy the times when Liam & Keegan are here to play and snuggle, as well as any of the neighborhood children that they come across during our walks.

Our Families

Zack's sons
Liam & Keegan

Megan comes from a very large family. Her father has 11 brothers and sisters and her mother has one brother. Megan has one younger brother whom she is close with. He is expecting his first child this year. Her parents and brother still live close by and we enjoy visits to their property for swimming and having cookouts in the country. Her parents reside on 100 acres with a large pond for swimming and fishing as well as a large portion of woods that we can explore. She grew up on that property and has spent a lot of time outdoors in the woods and exploring the fields on it. Meeko and Loki absolutely love to spend time out there playing fetch and going for a swim. Megan's family enjoys camping and has a large 5th wheel trailer they take out multiple times a year to explore and go camping.

Megan, Zack & Megan's brother Collin on vacation in Tennessee

Zack comes from a super tight knit close family. He is the oldest and he has a younger brother and sister. Zack's family lives in a very nice community with room to run and play in their back yard as well as numerous toys, activities at their house, and a community pool. Zack's younger brother lives close to us as well. We typically go on a family vacation with Zack's family every Spring. When our city holds various activity nights, his family is always interested in being included and we always invite them on our vacations with us to spend quality time together.

To the Birthmother

We are deeply honored that you have taken the time to explore our profile and take a little look into our life. We are anxiously awaiting the start of the next chapter in our lives. We hope this gives you an opportunity to look into our lives and to show you all of the love and attention we have to give to your child.

We recognize without a doubt that this will not be easy, and we commend you on your bravery. We hope that we can give you peace with your decision. We pledge to raise this child in a home filled with laughter and hugs, summer days visiting the beach and amusement parks, and winter nights spent snuggled warm indoors watching Christmas movies and enjoying hot cocoa. We pledge to build new traditions with them, include them in the current family traditions we have, and most importantly give them endless love, affection, and laughter.

Zack & Megan

Why Adoption

We have chosen adoption due to unexplained infertility issues. After many years of trying to start our family together, we have realized that our journey may be pointing in a different direction. We spoke with our family and friends, as well as prayed on it, and we have realized that adoption is the direction that we were meant to take. We believe whole-heartly in the statement that everything happens for a reason and we believe that reason has led us to adoption. We know that we have so much love & care to give and we are prepared both mentally & financially to provide for a child and excited that God has directed us down this beautiful path. We are prepared to welcome a boy or girl with any ethnicity. We plan to incorporate the child's background in their daily upbringing.
