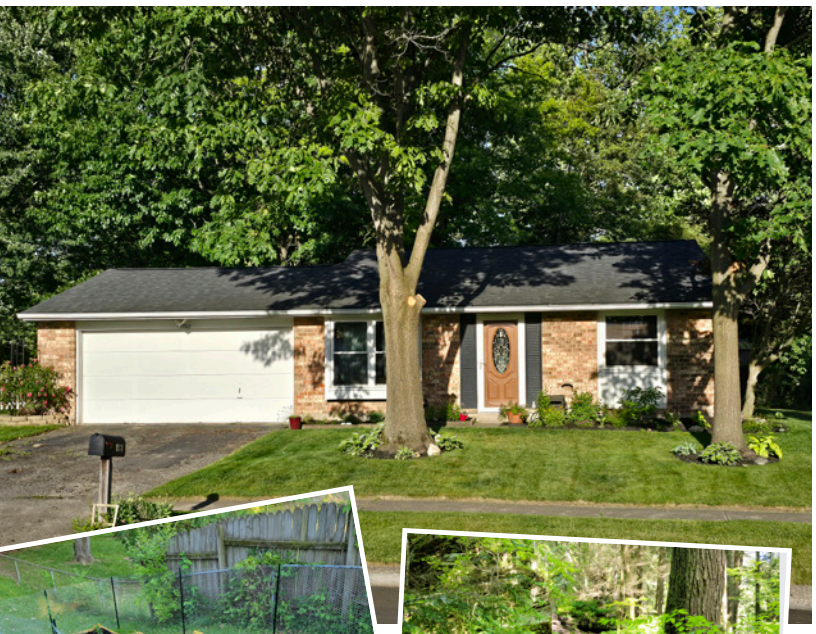
Steven & Tiffany

About Us

We met at work with the help of her great uncle playing cupid. It didn't take us long to realize we were perfect for each other. We had an outdoor wedding on the hottest day of that year and have been inseparable ever since. We do most activities together, whether that's cleaning, cooking, or shopping. Steven has a hunger for knowledge and is one of those people who is smart without even trying. Tiffany is more down to Earth and loves physically activities. We are Christians and our faith is important to us. It has taught us to be humble and kind. We are open-minded and like to expand our horizons with new adventures. We love hiking in new parks or kayaking down the river near our house. We've built an incredible life and can't wait to welcome a child into it.



Our Home

Our house sits on a quiet street in a cozy corner of the city and is a three-bedroom ranch house with plenty of room inside and out. The fenced-in yard is spacious with numerous trees and a small vegetable garden. There are numerous flower beds around the house filled with wildflowers and other native plants. Behind the house is a little creek that attracts birds and small animals. We spend most of our mornings and evenings on the covered patio watching the birds and wild life. There are many great neighbors around who we are acquainted with. There are many parks nearby and a bike trail that we often visit. There are many family-friendly and children focused activities around us as well.

We love the outdoors,

...are animal lovers and enjoy exploring new places. Our favorite things to do outdoors is kayaking, ziplining, and hiking. Our favorite seasons are spring and summer.

About Steven

By Tiffany

My husband is my best friend. He is the complete opposite of me, he is very tech savvy. As a Controls Engineer he has to deal with complex problems daily. Loves to tinker with computer parts, mining and taking things apart. Enjoys finding new places to fly his drones. He has a lot of patience. One of the best story teller I know. Would be a great teacher. He is good with money and planning things out. He has a great relationship with his family. He has a kind heart. My nieces and nephew love their uncle Steven. He is great with kids. He is also an animal lover like me.

About Tiffany

By Steven

Tiffany is my best friend. She is a kind-hearted, energetic, and hardworking person who loves plants and the great outdoors. She works at a small machine shop in Purchasing. She has two nieces who adore her and all the kids in the family love to play with her. She is a natural when it comes to kids. When at home she can often be found outside in the garden and can never pass up a plant when shopping. She enjoys all forms of outdoor activities and is very active. We are complete opposites and she pulls me out of my comfort zone. Many of the activities that I enjoy now are because she encouraged me to try them.

Our Pets

We have two cats, Asia and Gizmo, and a dog, Marley. Asia is the only female and leader of the pack. She is lovable and protective of Gizmo and Marley. Gizmo is playful and the instigator. He will often start the play fights with Asia and lounge around with Marley. Marley is a gentle giant with a heart of gold. He makes friends with everyone and loves to play. They all have their quirks but that's what we love about them.

Dear Birth Parent(s),

We enjoy a simple life and don't let stereotypes bother us. Our families are the same and any child will be welcomed and loved as a part of our family. We promise to raise and guide your child to the best of our abilities to be the best version of themselves. Thank you for letting us share ourselves with you. What you are doing for your child is courageous. God bless you and the little life growing inside of you!

Sincerely,

Steven & Tiffany

Why Adoption?

Raising a family has been something we have both looked forward to. We are infertile and want to start our family by adopting. We have so much love already and would like to extend that to your child. We promise to give your child an incredible upbringing that will hopefully lead them to become a confident and kind person. We promise to teach patience, kindness, love, respect and honesty. We will nurture and support their talents, encourage them in their pursuits, and give them every educational opportunity. Adoption to us means having the chance in become great parents and raise a wonderful child to be loved and cherished.
