
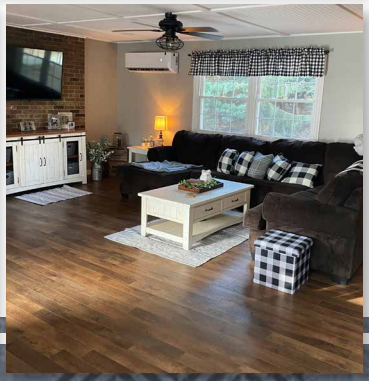
Dustin & Brittney

About Us

We met online in 2015, and our first date was spent bowling with friends. We instantly bonded over our similar upbringings as we both grew up in the country, going camping, canoeing and ATV riding. We both are incredibly close to our families, and we have always shared the passion to be parents. In February 2019 we took a trip to a cabin to go hiking. It was there under a beautiful waterfall that Dustin proposed. Knowing we both were ready to start a family, we chose to get married that September 2019, surrounded by family and loved ones outside at Brittney's childhood home. Since then we have purchased a home, and our last four and half years have been spent remodeling to make it our own. With the help of our families and friends, (and many nights spent painting, putting together cabinets and laying flooring) we moved in three months after our purchase. Now we spend our time working in our yard, planning our next home project, and visiting with friends. We own a camper that we haul around every weekend to campgrounds, finding new places to explore.

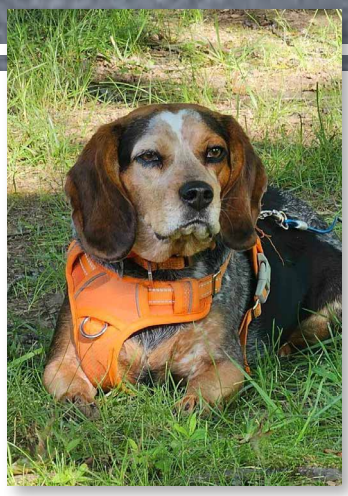


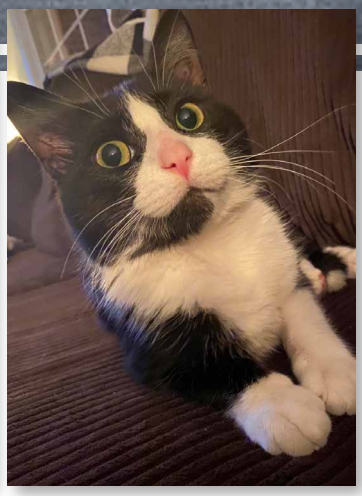
Our Home

When we purchased our home in 2020, we knew we wanted a place between both of our parents as we are very close with our families. Our house sits on 11 acres on a quiet country road. We have a two story home with three bedrooms and two bathrooms, all of which we completely remodeled in 2021. We have a two car detached garage and a large deck off our second story that overlooks our beautiful backyard. We have a small apple and peach orchard on our property and lots of land for pets and children to play. Our neighborhood is relaxing and peaceful; We are only seven minutes from our local grocery stores, hospital, churches, community center, parks and library.

Our Pets

We love our fur babies as we both love animals. We have two dogs and two cats. Willow is our lab mix, she is the most gentle and sweet dog you will ever meet. She loves kids just as much as they love her. She spends her time napping as she is 11 years old, but when given the chance she loves to swim! Dixie is five years old, she is a blue tick beagle. She enjoys being outside sunbathing on our deck or chasing squirrels. She loves to cuddle, especially with our four year old niece. Hank, our indoor cat, showed up in our backyard eight years ago and has been a part of the family ever since. He keeps to himself mostly and likes to lay by the window to watch the birds outside. Tito is our outdoor cat, always leaving surprises at our doorstep. He is the first one to great our guests and is always happy and wanting to be pet. Our fur babies mean a lot to us. The dogs always go on our camping trips with us and are brought to most all holiday festivities!





Our Family

We both can't thank our families enough for all they have done for us. They are our biggest supporters and we are incredibly blessed to have each and every one of them.

Dustin is the oldest of two siblings; His brother and sister both live about two hours away along with our four nephews. We see them throughout the summer and on holidays Dustin's parents, who have been married for 40 years, live just 20 minutes from us. Brittney is the youngest of two siblings; Her two brothers and niece live very close along with her parents, who have been married for 35 years. Our motto is family is everything. Traditions are big for us, beach vacations every year, big Christmas get togethers, reunions, and our annual Easter egg hunt.

Along with our family comes our core group of great friends. Our best friends live in Nashville. We try to see them at least once a year, and they always come on our family beach vacation with us. When we can't see them we spend many evenings FaceTiming with them.

About Brittney By Dustin

Brittney is the most selfless and caring human being I know, she has the biggest heart and would do anything for anyone. She has been my rock, the person who is always there for me and always has my back. Brittney enjoys reading and decorating our house for every season and holiday. She enjoys playing games, crafting and shopping with her best friend and her Mom. Brittney has watched our niece every Monday since she was an infant; On those days when I come home from work Brittney is always doing fun activities with her. One day they set up a lemonade stand and made cookies and she called all our family to stop out. When we go camping, Brittney always makes sure she has fun games and popsicles for the kids, and they always want to sit on her lap around the fire in the evenings. Her best friend's three kids call her Aunt Brit and she always makes time for them. Just seeing the way she is around kids, how caring she is and how kids react to her, I just know she will be nothing short of an amazing mother.

Occupation: Hairstylist

About Dustin By Brittney

Dustin, as most people that know him will say, can make friends with anyone he meets. He is outgoing, funny, caring, personable and hard-working. When I first met Dustin he was a volunteer firefighter; He always wants to help people in any way that he can. He is the man that stops to help an old lady cross the road, to see if everyone is okay if there is an accident, or to plow your driveway and shovel your walkway in a snow storm. His kindness and compassion is admirable. Our niece and nephews all love to ride on his back or have him swing them around. Every year Dustin takes his best friend's boys out for opening day or turkey season and deer season. I think its his favorite days of the year, he gets just as excited as they do. I think he wants to have them experience what he did with his own dad growing up. Dustin would be an incredible father; I can see him coaching baseball for his son or being the dad that learns the dance moves for his daughter's recital. As lucky as I am to have him as a husband, I'd be over the moon to see him as a father! His hobbies include hunting, fishing, spending time with friends, and working in his garage.

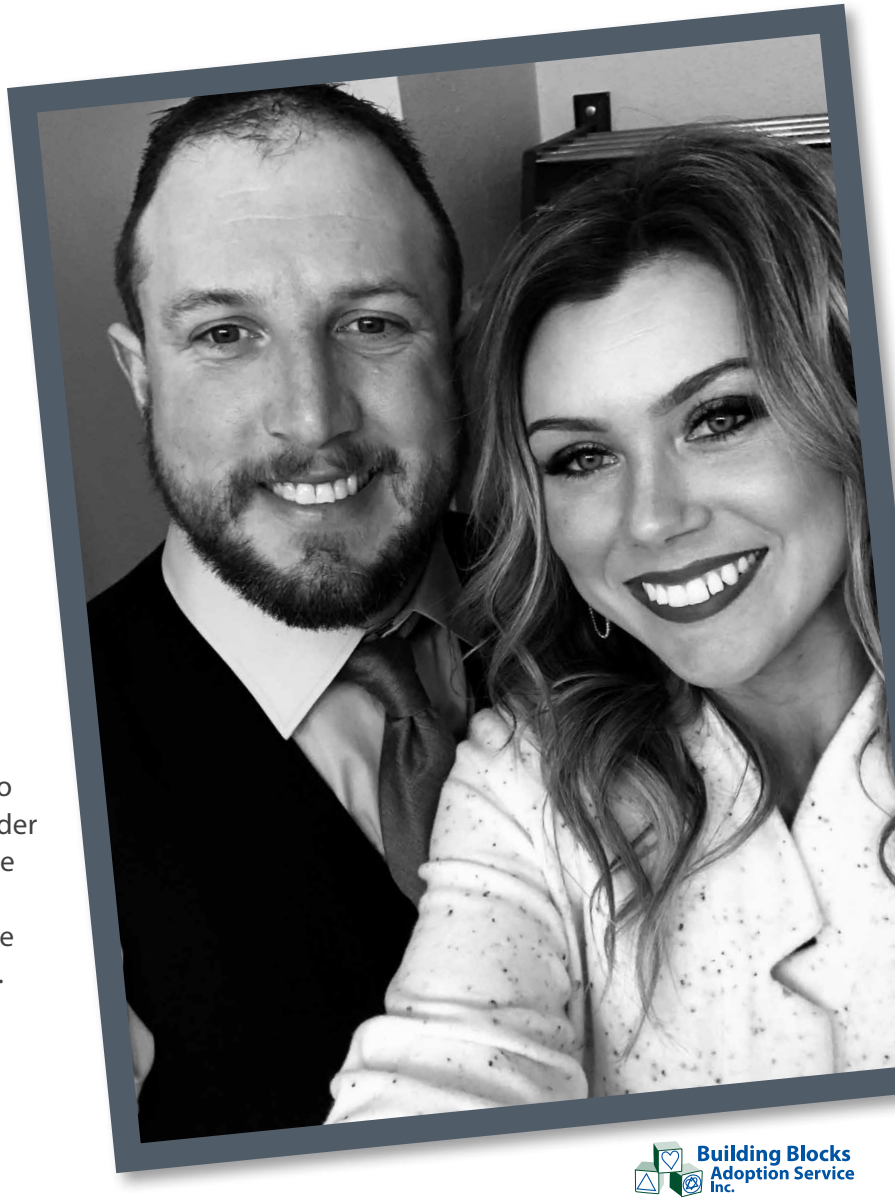
Favorite Movie: Jurassic Park
Favorite Season: Fall
Favorite Holiday: 4th Of July
Favorite Food: Steak
Favorite Vacation: Destin Florida
Favorite Snack: Peanut M&M's

Dear Birth Parent(s),



First, we would like to thank you for taking the time to review our profile. We understand how important your decision is when looking for adoptive parents. Having been unable to have children of our own, we are excited to begin the adoption process and we know how overwhelming all of this can be. We can assure you that if you chose us, your child will be welcomed into a safe and loving home, and they will be celebrated by a supportive extended family. They will experience the great outdoors as we take them on family camping trips every summer. They will grow up with traditions like baking Christmas cookies and hunting for Easter eggs. They'll build forever friendships in the form of close first cousins and four legged fur babies.

Thank you for taking the time to learn about us and about our home. Our desire to become parents has no boundaries, our hearts are open to a child of any gender or race. While adopting may make us parents, it will be the memories we create together that will make us a family. We've both dreamed of having children and we cannot wait to love, guide and learn FROM your child.

Sincerely,

Dustin and Brittney

Building Blocks Adoption Service Inc.

Why Adoption

We have been trying for almost five years to grow our family. Unfortunately after many fertility and IVF attempts, we were not successful. Our hardship has brought us even closer together; We know we can depend on one another, and we are always there to lift one another up. We both love children and know adoption is a path in which we can achieve the family our hearts desire. We want nothing more than to share with a child the love, support and memories we both grew up with.
