Travis & Juana

ABOUT US

We're Juana and Travis. We've been together for 13 wonderful years and married for 7. At the heart of our relationship is a deep friendship. We love to laugh, have fun, and explore new places together. We're both very close to our families and have lots of nieces and nephews who bring so much joy to our lives. We love spending time with them-whether it's family game nights, weekend outings, or just being silly together. Family means everything to us, and we're excited to have our home filled with lots of love, child laughter, and endless adventures.

OUR HOME

We live in a welcoming home with plenty of space to grow our family. It has 4 bedrooms, 4 bathrooms, and a finished basement that's all ready to become a fun and creative playroom. One of our favorite parts of our home is the garden—it's full of flowers, fresh vegetables, and lots of open space where children can run, play, and explore. We're lucky to live near several beautiful metro parks, family-friendly libraries, and cities full of activities and experiences for children of all ages. Our neighborhood is safe, peaceful, and filled with opportunities to make wonderful memories together.

OUR PET *Luna*

Our dog Luna is a very special part of our family. She came into our lives in the most perfect way. Travis's dad's dog, Roxy, had puppies, and we were lucky enough to be there from the very beginning. Luna chose us the moment she curled up and fell asleep in Travis's arms. She's fluffy, adorable, and has the sweetest personality. Luna is gentle, playful, and especially loves being around kids-she's like a giant teddy bear with a big heart. She brings so much joy to our home, and we know she'll be the best furry friend and protector to any child who joins our family.

FAMILY & FRIENDS

Family is at the center of our lives. Juana comes from a big family with 8 siblings and a ton of nieces and nephews-there's always laughter, adventures, and plenty of kids to play with! Travis has 2 siblings and 2 nephews, and we cherish watching all the children in our lives grow, develop their personalities, and become their own unique selves. We love making memories with our families, whether it's holiday traditions, weekend barbecues, or spontaneous get-togethers. Our friends are more like family. Many of them have been in our lives for years, and their families have welcomed us with open arms. We even get included in holidays and family events. We've had the joy of watching our friends grow-some starting families of their own, others building meaningful careers-and we've supported one another every step of the way. Above all, our community is built on love, pure support, and is child-centered. It's a beautiful environment we're excited to welcome a child into it.

DEAR BIRTH PARENT(S),

We want you to know how much we admire your strength, courage, and love in considering adoption. We're ready to give a child a life filled with love, care, stability, and support. We can't wait to share everyday moments, big milestones, and watch them grow. If chosen, we promise to raise your child in a home full of laughter, unconditional love, learning, and endless encouragement. From the bottom of our hearts, thank you for considering us.

With love and respect,

Juana & Travis

WHY ADOPT?

We've always dreamed of becoming parents. From the very beginning of our relationship, we knew we wanted to build a family. We love the life we've built together, and we feel ready in every way to welcome a child into our hearts and home-offering them joy, stability, and unconditional love.

After years of trying to grow our family, we faced a difficult journey. After going through treatment for a medical condition, we discovered that Juana cannot have children. We're incredibly grateful that she's healthy and through it all, one thing has remained constant: our desire to become parents. We truly believe adoption is the path meant for us. We're open to any race, as Juana is Mexican. Her family has a diverse mix of nieces and nephews from different races. We're ready to pour our hearts into raising a child and help them become the best version of themselves.
