Brian *and* Lauren

About Us

We met on-line and met for our first date at a local coffee shop. We were married six years later. Brian currently works in a factory which produces snack foods and has worked there for eight years. Lauren works in a local restaurant as a hostess and a server. She has been there for a year. We are Christians and attend church regularly.

We enjoy exploring historical places, spending time with our family and going on walks together. Brian likes to ride his motorcycle and work on cars. Brian has an interest in building Lego and Lauren enjoys helping with animal rescues through the humane society. We love to spend time with and take care of our fur babies. We live close to an Amish community and like to spend the day exploring flea markets and antique shops. We live close to two zoos and have done day trips and overnight trips. We take overnight trips or long weekend trips to different places every year for our anniversary and have found so many wonderful places that we always plan return trips.

Fun facts about us

Brian

Occupation: Packer in a factory

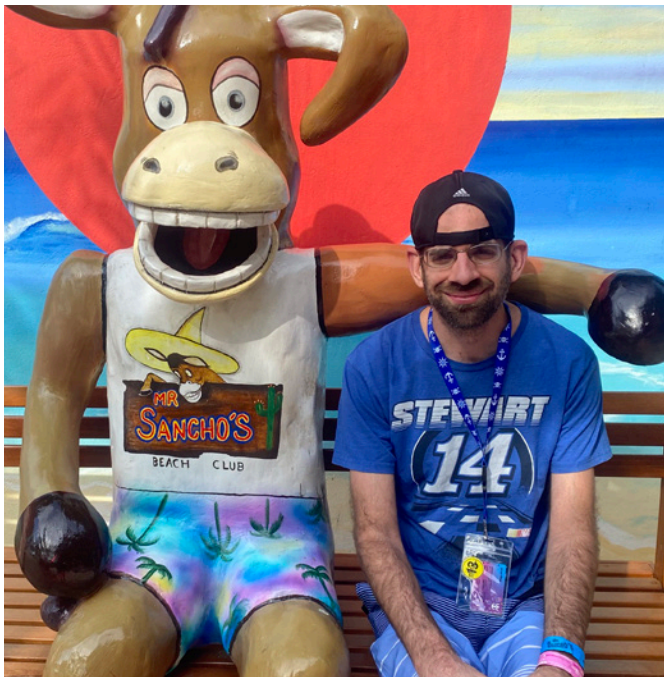
Hobbies: Helping with animal rescues, and coloring adult coloring books

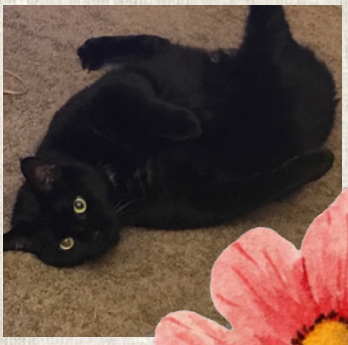


About Brian

Brian is a loving and caring person. We met in 2012 and I fell for him right away. Brian is a hard-working person and has always been committed to whatever he is doing. Brian likes to play with Lego and attend car shows. He is very attentive and loving. He is looking forward to teaching our child about Jesus and family values. He enjoys spending time outside working on his motorcycle, car and tending to the outside of our home. Brian can be very shy and quiet but opens quickly once he is comfortable. I think Brian will be a great dad as he is attentive and protective. He values family and looks forward to teaching a child about the world.

About Lauren

Lauren is a friendly and talkative person. She is always willing to give someone the benefit of the doubt and is willing to help someone in need. She loves animals and is involved in animal rescue. She also likes adult coloring books and looking at other people's work. Lauren has a motherly personality and is very attentive to other individuals' needs. Lauren is looking forward to teaching a child how to love and value animals and letting them explore the world.



Our Home

We live in a small town and a family- oriented neighborhood. Our home is a ranch style with 3 bedrooms, 2 bathrooms and a partially finished basement. We live close to the local park, churches and the local Library. Our community has tons of activities for kids and families, and we can't wait for our child to enjoy our community. We have a fenced in backyard with plenty of room and shade.

BOTTOM RIGHT: Brian and his brother Matthew

Our Family *and* Friends

Our family is very important to us. Most of our family lives within ten minutes of our home. We enjoy holidays, birthdays, and family dinners together. Our family is very supportive of our adoption and are looking forward to welcoming a new member to the family. Brian has a brother and sister, and Lauren is an only child. Brian's family has a family reunion every year at the local park. We have friends that we enjoy church activities with and who are also very supportive of our adoption process.

Dear Birthparent(s),

Thank you so much for taking the time to look at our profile. We are so excited to begin this journey into parenthood and we want to thank you for considering us as potential parents for your child. Your child will be a part of a family that will love and support them throughout their life. We are both Christians and will teach your child values that will guide them throughout their life. We want your child to feel supported in everything they do while feeling a sense of independence. We feel it is important for a child to explore and learn about the world while feeling safe and loved.

Brian & Lauren

Why Adoption?

Adoption is important to us because we feel it is God's plan for our family. We experienced problems getting pregnant & feel that adoption is God's will for us. We want to provide you love and support through your adoption plan and peace of mind knowing your child will be loved and well cared for. We are open to any child regardless of race or ethnicity. We do not see color in humans and will love your child regardless of race. We want your child to embrace who they are and their unique background. We will encourage your child in whatever way they wish to express who they are.
