Edward & Brittany

About Us

We have been married for eleven years and have always wanted to start a family. Edward comes from a big family with nine brothers and sisters, so having family around has always been a big part of his life. We have both dreamed of having children someday.

We met while working at Walmart. Brittany was going to college and working part-time. Edward had just gotten out of the Army and was also going to college while working part-time. We moved in together shortly after meeting, and we got married just six months later. We didn't have a big wedding—we chose something simple and meaningful at the courthouse.

Even though we have had struggles starting a family, we try to stay positive and enjoy life together. We love to travel and often visit different states. We go to conventions sometimes and enjoy meeting actors. We also love going to concerts and getting VIP experiences when we can.

We went to a Flyleaf concert and Edward happened to run into Lacy the lead singer and her husband.

We got VIP tickets to see Bullet for my Valintine. We got to meet the band, got a photo op, and got these really cool jackets.

VIP tickets to see from Ashes to New. We got to meet the band, had a photo op, and got to play corn hole with the band.

Every year, we go to Inkcarceration or Sonic Temple, depending on the bands. In the spring, we usually take a trip to Disney World or Universal Studios. We also love going to Cedar Point and never miss Halloweekends. We enjoy trying new things together. Sometimes we go out to eat and try new restaurants. Other times we go indoor go-karting, play mini golf, or go bowling. We also enjoy going to hockey games during the season.

We truly enjoy spending time together and are always looking for something fun and new to do.

Our Home and Pets

This is our home. We currently rent a duplex while focusing our resources on starting a family, with plans to buy a house once we have children. We've lived here for five years, next to Edward's sister and her kids. The neighborhood is quiet, with a park and pool two blocks away and a library near the town square just four blocks away.

Our backyard is fully fenced with two gates connecting both driveways. One garage is used for parking, while the other serves as storage for tools and patio furniture. The yard features a concrete pad for bikes and play, a garden with tomatoes, peppers, strawberries, and cucumbers, and a small stone patio with a table and chairs. We enjoy frequent cookouts with family, using the combined yard space for activities like cornhole and setting up a kiddie pool.

About Edward

Edward works for the post office as a mail carrier and is a retired Army veteran. He is thoughtful, fun, creative, and very family-oriented. He is always doing things for others and enjoys spending time with family. He loves watching football with our nephews and playing video games with them online. We visit his parents almost every Sunday, and he also spends time with his siblings when he can.

Every year, Edward helps plan our big family Christmas party. We rent a hall and invite everyone. He comes up with fun games for both kids and adults, like the oven mitt game and the saran wrap ball game. He even dresses up like the Grinch every year, which everyone loves.

Edward is amazing with kids and especially great with babies. He has a special way of calming them, and it's something I've always admired. He enjoys going to the movies and loves movie theater popcorn. He is also a thrill seeker and enjoys rides at Cedar Point. We often take our nieces and nephews with us.

Edward loves Mini Coopers and enjoys driving his car whenever he can. This interest has turned into a hobby of detailing cars, and he hopes to turn it into a business someday. He is also a big fan of Star Wars and collects memorabilia. We've been to Star Wars conventions and have met several actors together. Edward loves to travel and hopes to visit Japan one day.

About Brittany

Brittany is a hard-working, caring, and passionate person. She has always wanted to have a family and has stayed strong, even through difficult times. She always puts others first and makes sure the people around her feel heard and cared for. She is very supportive and always encourages the people she loves.

Brittany loves to write and is very creative. She has been working on her first book and hopes to become a published author one day. Writing has become one of her biggest passions. She also loves to bake and cook. She enjoys making meals for family and friends, especially during holidays. She is known for her pumpkin roll and enjoys trying new recipes.

Brittany also enjoys sewing, crocheting, and knitting. She loves making things by hand and creating gifts for others. She loves music and going to concerts, and she also has a deep love for animals. She truly cares about their well-being and wants them to live happy lives.

Edward's Likes:

Star Wars, Mini Coopers, our dogs, movies, video games, relaxing at home, and spending time with family.

Brittany's Likes:

Animals, baking, writing, reading, music, crocheting, knitting, sewing, crafts, swimming, gardening, and being in nature.

Our Family & Friends

Family is a big part of our lives. Edward has a large family, and most of them live close by, so we see them often. We visit his parents every Sunday, and his mom always makes a big dinner. She is an amazing cook, and Brittany has learned a lot from her over the years.

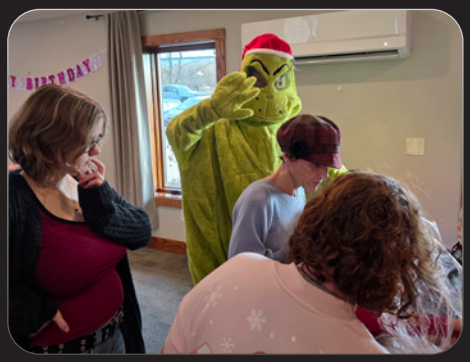
His dad enjoys cars and sports, and they often go to auto shows together. We also attend hockey games, football games, and go to amusement parks with family during the summer.

We are usually the ones who plan family get-togethers. Christmas is a big event for us. Every year, we rent a hall, plan games, and do a Secret Santa gift exchange. It's always full of laughter and fun.

Brittany's family is also very important to us. We spend time with them during holidays and special events. Everyone is loving and supportive.

A child in our home would grow up surrounded by family who truly cares.

Me, my best friend Rebecca, and her daughter at Chuck e Cheese for her third birthday.



Edward dressed as the Grinch for the Christmas Party.

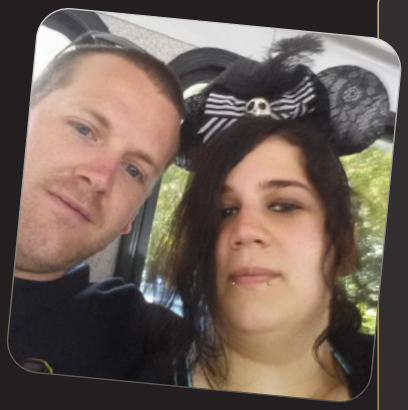
Ed's family Christmas photo at our annual Christmas party. They really get crazy with all the kids running around.

Nieces and nephews playing the saran wrap ball game at our Christmas party.

This is my best friend Rebecca. We've been friends since fourth grade. She has a daughter that is three years old. We often go on hikes and go on shopping trips. She is very supportive.

Brittany's family out to eat after her cousin got out of the Air Force. Pictured from left to right: Her grandpa, Her cousin Steven & his mom, Her parents and brothers.

Edward with my niece Emma on the ride Valraven at Cedar Point. They sat in the middle seats all the way in the front.



This was our trip to Disney last May. It was so hot that day. Spent most of our time in Hollywood studios. We were running around trying to hit every ride. It was really busy. We just had enough time to snap a photo on the tram.

Another hockey game, it was really packed that night. We had so much fun, but it was really cold out waiting in line to get inside.

To those considering us,

Thank you for taking the time to look over our profile. I can't even begin to imagine how hard of a decision this is for you and I know deciding who to care for your baby is extremely hard. We may not know what it's like making this decision, but we know what it's like to lose a child. I think about what he would have looked like and how his life would have been. We have been struggling to have children for so long, tried so many ways, and spent so much time and money.

If we are chosen to raise your child, we will gladly keep you informed of their wellbeing. We'll send pictures and videos to let you know how they are doing. If you choose to meet with them, then I will gladly set something up. We know what it's like to lose a child and we would never wish that upon anyone. If you don't want to keep in contact that's fine, but we are willing to work with anyone who does.

We promise you, if you choose us, your child will be loved unconditionally as if they were our own. We will see that they have an amazing child hood, with trips to the park, to the zoo, hay rides with pumpkin picking, baking cookies for Santa, Easter egg hunts, parades, trips to the circus, and so much more. Doing these things when I was a child meant so much to me and I would love to pass on that same magical experience to them, to see their face light up with wonder. We honestly look forward to the tea parties if it's a girl or the pretend safari hunts if it's a boy, but regardless of the gender there will be blanket forts. We will read to them every night, I have a bookshelf full of golden books yet to be opened. We look forward to doing all these things with them. They will have a good life with wonderful loving memories.

Sincerely,

Edward & Brittany

Why are we choosing to adopt?

We have been trying to have a child for our entire marriage. After we got married, we went to a specialist and learned that we would not be able to conceive on our own. We spent time saving money so we could try IVF. When we finally started treatment, we were so happy to become pregnant. Sadly, due to a medical error, we lost our baby. It was one of the hardest things we have ever gone through. We continued trying IVF, but the treatments were not successful.

Even through all of this, our dream of becoming parents has never gone away. We still want to experience the joy of raising a child. We dream about the little moments—pushing a child in a toy car while making silly sounds, baking cookies together, or hearing them laugh and call out "Daddy" in a store. We are choosing adoption because we truly want a child to love and care for. We want to watch them grow, learn, and experience life.
